David Knoke, Song Yang

Analyzing Documentary Accounts:

Analyzing Documentary Accounts Randy Hodson, 1999-07-16 Although ethnographic evidence has accumulated in fields ranging from organizational studies to sociology these studies have not been fully exploited except as sources of descriptive data Analyzing Documentary Accounts provides researchers with complete guidelines from mining ethnographic data through the use of new analytic techniques Readers will find Analyzing Documentary Accounts the key to unlocking the rich data sources available in ethnographic material Using examples from human relations and Hodson's workplace files author Randy Hodson explains the benefits and limitations of the quantitative analysis of extant bodies of ethnographic evidence ways to do reliability and validity checks methods for coding the data methods for analyzing multiple ethnographic studies and suggestions for effectively combining qualitative and quantitative methodologies Sequence Analysis Marcel Raab, Emanuela Struffolino, 2022-04-04 Sequence analysis SA was developed to study social processes that unfold over time as sequences of events It has gained increasing attention as the availability of longitudinal data made it possible to address sequence oriented questions This volume introduces the basics of SA to guide practitioners and support instructors through the basic workflow of sequence analysis In addition to the basics this book outlines recent advances and innovations in SA The presentation of statistical substantive and theoretical foundations is enriched by examples to help the reader understand the repercussions of specific analytical choices The extensive ancillary material supports self learning based on real world survey data and research questions from the field of life course research Data and code and a variety of additional resources to enrich the use of this book are available on an accompanying website **Confirmatory Factor Analysis** J. Micah Roos, Shawn Bauldry, 2021-10-06 Measurement connects theoretical concepts to what is observable in the empirical world and is fundamental to all social and behavioral research In this volume J Micah Roos and Shawn Bauldry introduce a popular approach to measurement confirmatory factor analysis with examples in every chapter draw from national survey data Data to replicate the examples are available on a companion website along with code in R Stata and Mplus **Basic Content Analysis** Robert Philip Weber, 1990 This second edition has been completely updated to include new studies new computer applications and an additional chapter on problems and issues that can arise when carrying out content analysis in four major categories measurement indication representation and interpretation *Social Network Analysis* David Knoke, Song Yang, 2008 Providing a general overview of fundamental theoretical and methodological topics with coverage in greater depth of selected issues the text covers various issues in basic network concepts data collection and network analytical methodology Research Methods in International Relations Christopher Lamont, 2021-11-17 The only guide to conducting research in International Relations Covering the full breadth of methods in IR with unrivalled clarity this best selling textbook takes you through the entire process of doing research from honing your question to writing up the dissertation The engaging and jargon free style demystifies the process of doing research whilst helping you develop a comprehensive

understanding of the strengths and limitations of different methods and methodologies This second edition comes with new chapters on conducting interviews and discourse analysis as well as expanded coverage of qualitative and quantitative methods Packed with examples it explores the breadth of IR research today from the long lasting impact of colonialism to migration policy climate change negotiations to international aid Covering the most cutting edge methodological developments including critical realism feminist and postcolonial approaches it helps you understand and apply research methods in world politics This practical introduction is essential reading for anyone setting out on their International Relations research project for the first time at undergraduate and postgraduate levels Christopher Lamont is Assistant Dean of E Track Programs and Associate Professor of International Relations at Tokyo International University Japan

Understanding Regression Analysis Larry D. Schroeder, David L. Sjoquist, Paula E. Stephan, 2016-10-20 Understanding Regression Analysis An Introductory Guide presents the fundamentals of regression analysis from its meaning to uses in a concise easy to read and non technical style It illustrates how regression coefficients are estimated interpreted and used in a variety of settings within the social sciences business law and public policy Packed with applied examples and using few equations the book walks readers through elementary material using a verbal intuitive interpretation of regression coefficients associated statistics and hypothesis tests The Second Edition features updated examples and new references to modern software output

Mediation Analysis Dawn Iacobucci, 2008-04 Explores even the fundamental assumptions underlying mediation analysis

Propensity Score Methods and Applications Haiyan Bai, M. H. Clark, 2018-11-20 A concise introductory text Propensity Score Methods and Applications describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method Using succinct and approachable language to introduce the basic concepts of PSM authors Haiyan Bai and M H Clark present basic concepts assumptions procedures available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own

Linear Regression Damodar N. Gujarati, 2018-06-14 Damodar N Gujarati s Linear Regression A Mathematical Introduction presents linear regression theory in a rigorous but approachable manner that is accessible to students in all social sciences This concise title goes step by step through the intricacies and theory and practice of regression analysis The technical discussion is provided in a clear style that doesn t overwhelm the reader with abstract mathematics End of chapter exercises test mastery of the content and advanced discussion of some of the topics is offered in the appendices

Dimensions of Sex Offender Sanctioning Joanne Oreskovich, 2001

Business, 1915

Access to Higher Education Marty Z. Khan, 2005-12-14 On November 9 1999 the Governor of Florida issued Executive Order 99 281 to establish the One Florida Initiative which abolished the use of race as a factor in university

admissions In February 2001 the South African government issued its National Plan for Higher Education which outlined a framework to redress inequities in the country's higher education system perpetuated by the former government's apartheid ideology In *Access to Higher Education* author Marty Z Khan explores the challenges and conflicts the senior university leaders in Florida and South Africa faced while implementing these policies Using a qualitative methodology and focused interviews with senior leaders at two universities in Florida and South Africa this book highlights unique ways of implementing a policy with which one may or may not agree This study is an important resource for policy makers senior leaders educational administrators university leaders and graduate and undergraduate students who have an interest in broadening access to higher education for those who have been traditionally discriminated against Furthermore undergraduate and graduate students who have a keen interest about issues of access to higher education will find this book useful *The Princeton Theological Review*, 1926 Includes section Reviews of recent literature *Business, the Magazine for Office, Store and Factory*, 1914 **Imitation and Transition in World Politics** Benjamin E. Goldsmith, 2001

American Book Publishing Record, 2000 **International Journal of Comparative and Applied Criminal Justice**, 2009 **Ethnographic Discourse of the Other** Panchanan Mohanty, Ramesh C. Malik, Eswarappa Kasi, 2008 This book primarily tries to bring out the analogy between the conceptual and methodological discourses on the theme of the other The term Other here refers to the oppressed sections of the society It may be dalits women indigenous or ethnic communities Since we are living in a multicultural and multilingual society we should share our views with others on a platform where issues of the marginalized people are addressed by different scholars following different methods and techniques Though there are various policies and plans for the welfare of the downtrodden hardly any change can be seen at the micro level structure of the society There are studies which highlighted the problems and ethos of the downtrodden sections but a majority of those studies neglected the marginalized groups Hence we felt the need to highlight the issues and concerns of these groups in a wider context and started thinking on the theme *Ethnographic Discourse of the Other* Conceptual and Methodological Issues This volume attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary societies in South Asia This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology Sociology Linguistics Social Work Culture Studies Gender Studies and Philosophy It is widely applicable to all sections of the oppressed socially economically culturally academically politically and other wise

Missing Data Paul D. Allison, 2001-08-13 Using numerous examples and practical tips this book offers a nontechnical explanation of the standard methods for missing data such as listwise or casewise deletion as well as two newer and better methods maximum likelihood and multiple imputation Anyone who has relied on ad hoc methods that are statistically inefficient or biased will find this book a welcome and accessible solution to their problems with handling missing data
