Canada Without Armed Forces:

Canada Without Armed Forces? Queen's University (Kingston, Ont.). School of Policy Studies, 2004 The Canadian Armed Forces is collapsing not might or could collapse but is collapsing The problems with the navy's marine helicopters that dogged Jean Chretien during his tenure as prime minister are only a sample of the problems facing today's military Besides the three billion dollars needed to replace these essential pieces of hardware billions more will be required over the next few years to replace transport aircraft navy destroyers and army logistic vehicles to list just a few The estimated budgetary shortfall for equipment replacement for the period ending 2008 is approximately 15 billion dollars and equipment replacement isn't the military's most pressing problem Even more critical is personnel The men and women of the Canadian Armed Forces are being called upon to participate in too many missions which not only causes fatigue and burn out but is seriously affecting training particularly for new recruits who do menial tasks at home while the people who should be training them participate in foreign missions Canada Without Armed Forces offers a way out of this morass with concrete proposals that will allow the Canadian military to regain its stature among ordinary Canadians and on the world stage and will enable our military forces to once again become an effective tool for our foreign policy Contributors include Brian MacDonald President Strategic Insight Planning and Communications Christopher Ankersen graduate student London School of Economics and Howie Marsh Conference of Defence Associations **Canada's Army** J. L. Granatstein, 2011-01-01 Canada's Army traces the full three hundred year history of the Canadian military from its origins in New France to the Conquest the Revolutionary War and the War of 1812 from South Africa and the two World Wars to the Korean War and contemporary peacekeeping efforts and the War in Afghanistan Granatstein points to the inevitable continuation of armed conflict around the world and makes a compelling case for Canada to maintain properly equipped and professional armed forces pub desc

Dreamland Roy Rempel, 2006-03-29 Roy Rempel argues that the past decade has been marked by an ideological and domestically driven foreign policy agenda that has lost sight of the national interest As a consequence Canada's policy options are narrowing national sovereignty is eroding and the country risks evolving into a protectorate of the United States Dreamland analyzes how Canada's foreign policy has subverted the myths that Canadians believe about themselves and their place in the world [Australia and Canada in Afghanistan](#) Jack Cunningham, William Maley, 2015-05-02 Following the

attacks of September 11 2001 Australia and Canada joined the U S and other Western allies in attacking al Qaeda bases in Afghanistan In the book a stellar group of academic and political experts explore the Canadian and Australian experiences in Afghanistan **Civil-Military Relations and Shared Responsibility** Dale R. Herspring, 2013-06-01 A provocative approach to evaluating civil military relations Dale R Herspring considers the factors that allow some civilian and military organizations to operate more productively in a political context than others bringing into comparative study for the first time the military organizations of the U S Russia Germany and Canada Refuting the work of scholars such as Samuel P

Huntington and Michael C Desch Civil Military Relations and Shared Responsibility approaches civil military relations from a new angle military culture arguing that the optimal form of civil military relations is one of shared responsibility between the two groups Herspring outlines eight factors that contribute to conditions that promote and support shared responsibility among civilian officials and the military including such prerequisites as civilian leaders not interfering in the military promotion process and civilian respect for military symbols and traditions He uses these indicators in his comparative treatment of the U S Russian German and Canadian militaries Civilian authorities are always in charge and the decision on how to treat the military is a civilian decision However Herspring argues failure by civilians to respect military culture will antagonize senior military officials who will feel less free to express their views thus depriving senior civilian officials most of whom have no military experience of the expert advice of those most capable of assessing the far reaching forms of violence This issue of civilian respect for military culture and operations plays out in Herspring s country case studies Scholars of civil military relations will find much to debate in Herspring s framework while students of civil military and defense policy will appreciate Herspring s brief historical tour of each countries post World War II political and policy landscapes
