Introduction

Sociology can be termed as the study of social human relationships and institutions. Sociology's subject matter has a wide range, from crime to religion, family to state, race divisions and social class to common culture and shared beliefs, and from stability to essential change in society. Sociology's purpose of comprehending how perception and humans relate in a community is determined by social and cultural structures. At an individual level, sociology determines the social consequences and causes of gender and racial identity, romantic love, deviant behavior, family conflict, religious faith, and aging (Corrigall-Brown & Catherine, 2020). The societal level deals with law and crime, wealth and poverty, discrimination and prejudice, education and schools, social movements, and urban communities. In Canada, sociological theories and concepts, including social isolationism, heterogeneity, and structural functionalism, have helped analyze social principles in newspapers and magazines.
