Book Review Digest, 2002

Introduction to Reference Work William A. Katz, 2002 These two volumes explain the basic reference

processes and sources of information in today's libraries. They are ideal for understanding and mastering basic reference forms no matter how they're packaged. This 8th edition is virtually all new, reflecting the easy accessibility of electronic databases on the Internet. Volume 2 introduces the sophisticated and imaginative aspects of the complete reference process. It discusses the ongoing and important changes and developments in information technologies, particularly the role of the Internet.

Reference and Information Services Richard E. Bopp, Linda C. Smith, 2001

Thoroughly revised and expanded to reflect current developments in the field, this text is designed to provide the beginning student of library and information science with an overview of the most important tools for general reference work and the concepts and theory behind today's reference services. The 21 chapters are divided into two parts. The first 11 chapters deal with concepts and theory and are topical. They cover such areas as ethical aspects of reference services, reference interview, the principles and goals of library instruction, bibliographic control and search strategies, training and continuing education for reference staff, the evaluation of reference services, and the management of these services. In many cases, specific applications in different types of libraries are pointed out. Expanded coverage of electronic reference service is provided by two full chapters devoted to basic principles and current trends in this area. A separate chapter covers unique approaches to reference service for special groups. Part 2 describes the general principles and sources for selecting and evaluating

reference tools and the principles for building a reference collection The remaining chapters discuss the characteristics and uses of particular types of reference tools This new edition describes a greater number of titles of each type as well as the formulation of strategies for the effective use of specific sources or groups of sources Scenarios in particular library settings conclude each chapter offering realistic reference questions and appropriate search strategies Throughout the text boxes are used to highlight specific issues concepts and search strategies that underlie contemporary reference services Selected important sources for further reading are listed at the end of each chapter This text presents the essential theory and practical knowledge necessary for an initial reference course Its broad scope and organizational clarity should benefit students and practitioners alike

The Elementary Teacher's Guide to the Best Internet Resources Bárbara Cruz, James A. DuPlass, 2007 Elementary Education on the Internet offers a contemporary approach to cataloging lesson plans and resources on the Internet and criteria for you to use in selecting websites and lesson plans on the Internet 1 Options and ideas for gathering and cataloging Internet resources for the most effective use in the classroom 2 Connections to standards and national and state professional organizations help keep your lessons aligned with critical curriculum standards 3 A chapter on each content area makes it easy to locate relevant websites for the subjects being taught In service Elementary School Teachers Parents and Curriculum Specialists
