## **Ambiguities In Intensional Contexts:**

**Ambiguities in Intensional Contexts** F. Heny, 2012-12-06 The essays in this book deal with a number of problems in the analysis of intensional language more especially with the analysis of the personal modalities in natural language Together they cover a representative spectrum of the problems of contemporary interest in this area in a way that should make them of interest to linguists logicians and philosophers concerned with natural language The contributors are mostly more linguists than logicians or philosophers but some are more logicians or philosophers than linguists As far as possible we have tried to conduct the discussion in terms that will enable students from any of these fields to come to grips with the central issues This volume will provide I think material for a very stimulating course I have used it as the basis for a course at the introductory level in the philosophy of language The essays in the book led us back to look at the classic texts and a good deal of the intervening literature crept in of its own accord Out of that experience grew the introduction that follows In contrast with the rest of the book the introduction is frankly pedagogical I hope and believe that many who would otherwise find the papers themselves hard to digest will be helped on their way by that summary

**Context and the Attitudes** Mark Richard, 2013-03-07 Thirteen seminal essays by Mark Richard develop a nuanced account of semantics and propositional attitudes The collection addresses a range of topics in philosophical semantics and philosophy of mind and is accompanied by a new Introduction which discusses attitudes realized by dispositions and other non linguistic cognitive structures

**Reference and Anaphoric Relations** H.K. von Stechow, U. Egli, 2012-12-06 This book is a collection of original research articles on the representation and interpretation of indefinite and definite noun phrases anaphoric pronouns and closely related issues such as reference scope and quantifier movement A variety of frameworks for the formal analysis of discourse semantics are represented including discourse representation theory file change semantics dynamic Logic E type theories and choice function approaches which was one of the main issues the Konstanz project were concerned with All of these frameworks are couched in the tradition of Montague Grammar even though they extend the classical formalism in different directions The developments emerged from the modern discussion of problems for the representation of cross sentential anaphoric relations involving pronouns and the interpretation of definite and indefinite noun phrases After a decade of controversy these approaches are merging together enriching each other's formal mechanisms rather than expressing opposition Thus the articles in this volume concentrate on fundamental semantic questions and also extend the current formalisms in order to capture more data The roots of this book lie in the workshop Reference and Anaphoric Relations which was held at the University of Konstanz in June 1996 Five main issues were discussed i the Stoic and scholastic treatment of reference and anaphora ii quantification and scope iii anaphoric reference iv the representation of indefinite NPs with choice functions and v the relation between linguistic expressions their representations and their meanings

*Norwegian Modals* Kristin M. Eide, 2005 This book is an investigation of the syntax and semantics of

Norwegian modal verbs cast in the Principles and Parameters framework The two main topics are a the argument structure of these modals and b their possible insertion points in a syntactic structure Both topics regard the syntax as well as many aspects of the semantics of these linguistic elements

**Theoretical and Crosslinguistic Approaches to the Semantics of Aspect** Susan Deborah Rothstein,2008 The papers in this volume investigate the semantics of aspect from both a theoretical and cross linguistic point of view in a wide range of languages from a number of different language families The papers are all informed by the belief that a thorough exposure to the expression of aspect cross linguistically is crucial for progress in understanding how the semantics of aspect and what the semantic basis of aspectual distinctions is The languages discussed include Russian English Dutch Hebrew Mandarin Japanese and Kalaallisut The issues discussed in this volume include the centrality of measuring and counting in an understanding of telicity the importance of the singular plural distinction in the study of aspect the importance of homogeneity as a property of event types the flexibility of lexical classes and the interaction between expressions of aspect and the particular morphosyntactic structure of a language

**Journal of Semantics** ,1983

**Logic, Thought and Language** Anthony O'Hear,2002-10-24 Much contemporary philosophical debate centres on the topics of logic thought and language and on the connections between these topics This collection of articles is based on the Royal Institute of Philosophy s annual lecture series for 2000 2001 Its contributors include a number of those working at the forefront of the field and in their papers they reflect their own current pre occupations As such the volume will be of interest to all philosophers whether their own work is within the areas of language and thought or not

**Dimensions in the Semantics of Comparatives** Peter Alrenga,2007 **Theoretical Linguistics** ,1987 Odu ,1990

**Projecting the Adjective** Christopher Kennedy,1997 Judgment Instructional Objectives Exchange,1974 **Subject Catalog** Library of Congress, **Some Extensions of a Montague Fragment of English** Michael Ruisdael Bennett,1975

**FLSM VI: Syntax II & semantics** Formal Linguistics Society of Midamerica. Meeting,1995 *Versus* ,1978

*Proceedings from Semantics and Linguistic Theory* ,2000 **Proceedings from Semantics and Linguistic Theory X** Brendan Jackson,Tanya Matthews,2000 **Context and Presupposition** Rob A. van der Sandt,1988 This book which has been written for linguists and philosophers working in the field of semantics deals with presupposition and its dependence on context The Mapping Hypothesis and Postverbal Structures in Mandarin Chinese Eva Hung,1993
