America Can Make It:

Make It In America, Updated Edition Andrew Liveris, 2011-12-15 The case for revolutionizing the U S economy from a leading CEO America used to define itself by the things we built We designed and produced the world s most important innovations and in doing so created a vibrant manufacturing sector that established the middle class We manufactured our way to the top and became the undisputed economic leader of the world But over the last several decades and especially in the last ten years the sector that was America s great pride has eroded costing us millions of jobs and putting our long term prosperity at risk Now as we struggle to recover from the worst recession in generations our only chance to turn things around is to revive the American manufacturing sector and to revolutionize it In *Make It in America The Case for Reinventing the Economy* Andrew Liveris Chairman and CEO of The Dow Chemical Company offers a thoughtful and passionate argument that America s future economic growth and prosperity depends on the strength of its manufacturing sector The book explains how a manufacturing sector creates economic value on a scale unmatched by any other and how central the sector is to creating jobs both inside and outside the factory Explores how other nations are building their manufacturing sectors to stay competitive in the global economy and describes how America has failed to keep up Provides an aggressive practical and comprehensive agenda that will put the U S back on track to lead the world It s time to stop accepting as inevitable the shuttering of factories and staggering job losses that have come to define manufacturing It s time to acknowledge the cost of inaction There is no better company to make the case for reviving U S manufacturing than The Dow Chemical Company one of the world s largest manufacturers and most global corporations And there s no better book to show why it needs to be done and how to do it than *Make It in America* [America in Decline](#) Justin P. DePlato, Alex C. Minford, 2021-08-27 While the ancient Greeks and Romans are seldom studied in the modern American polity their societies possessed distinct civic virtues and standards of excellence that formed the basis of the United States The authors argue that the Founders and Framers of the U S created a nation based on the juxtaposition of ancient principles which helped cultivate a population of civic minded excellent citizens The history of the U S is far from perfect but the idea of America at its origin was revolutionary In modern times however the authors argue that the American people are forgetting what it means to be American The decline of both civic virtue and standards of excellence in today s America is responsible for the rise of poor political leadership Under President Donald Trump America s ability to maintain peace throughout the world known as Pax Americana was deteriorated which worsened the integrity stability and longevity of the country While many scholars have attempted to explain the rise of Trump the authors argue that if American citizens want to know how Trump rose to power they need only look into a mirror
