Owen, 2008 *The Collage Aesthetic in the Harlem Renaissance* Rachel Farebrother, 2009 Beginning with a subtle and persuasive analysis of the cultural context Farebrother examines collage in modernist and Harlem Renaissance

figurative art and unearths the collage sensibility attendant in Franz Boas's anthropology. This strategy makes explicit the formal choices of Harlem Renaissance writers by examining them in light of African American vernacular culture and early twentieth century discourses of anthropology, cultural nationalism, and international modernism. At the same time, attention to the politics of form in such texts as Toomer's *Cane*, Locke's *The New Negro*, and selected works by Hurston reveals that the production of analogies, juxtapositions, frictions, and distinctions on the page has aesthetic, historical, and political implications. Why did these African American writers adopt collage form during the Harlem Renaissance? What did it allow them to articulate? These are among the questions Farebrother poses as she strives for a middle ground between critics who view the Harlem Renaissance as a distinctive and necessarily subversive kind of modernism and those who foreground the cooperative nature of interracial creative work during the period. A key feature of her project is her exploration of neglected connections between Euro American modernism and the Harlem Renaissance, a journey she negotiates while never losing sight of the particularity of African American experience. Ambitious and wide-ranging, Rachel Farebrother's book offers us a fresh lens through which to view this crucial moment in American culture.

**The British National Bibliography** Arthur James Wells, 2001

**Grant Morrison and the Superhero Renaissance** Darragh Greene, Kate Roddy, 2015-08-10 Superheroes are enjoying a cultural resurgence, dominating the box office and breaking out of specialty comics stores onto the shelves of mainstream retailers. A leading figure behind the superhero Renaissance is Grant Morrison, long-time architect of the DC Comics universe and author of many of the most successful comic books in recent years. Renowned for his anarchic original creations *Zenith*, *The Invisibles*, *The Filth*, *We3*, as well as for his acclaimed serialized comics *JLA*, *Superman*, *Batman*, *New X-Men*, Grant Morrison has radically redefined the superhero archetype. Known for his eccentric lifestyle and as a practitioner of pop magic, Morrison sees the superhero as not merely fantasy but a medium for imagining a better humanity. Drawing on a variety of analytical approaches, this first-ever collection of critical essays on his work explores his rejuvenation of the figure of the superhero as a means to address the challenges of modern life.
