## Call It Destiny:

**Destiny's Written Script** Patrice Yehuda,2012-09-14 What would you do when the only path to your destiny is the path you never wished for Each destiny has a price that we must pay The path of the cross is that which leads to the crown Life triumphs over death Death only brings out life Death helps to reveal the power of life The path which is common to all men is the path which leads to nowhere God had determined the seasons long before time began He had also determined their appointed times and duration In the eternal order the unfavorable must come before the favorable darkness must precede light and evil happens before good The blessing cancels the curse and sin shall abound that grace may thereafter much more abound The script is the eternal master plan There is nothing that can ever be added to or taken away from the script It is eternally perfect and complete in its design and concept There must be a time when evil is allowed to hold sway but good holds the trump card of finality **"She Is Evil!"** Judith A. ## **CULTURE OF NAMES IN AFRICA** Emma Umana Clasberry, 2012-01-12 INTRODUCTION

Personal name is a vital aspect of cultural identity As a child you may have loved or hated your name But you were rarely indifferent to it What s in a name Shakespeare asked That which we call a rose by any other name would smell as sweet he explained Perhaps in England or somewhere else in Europe but not in Africa Personal names in African have meanings can affect personality hinder or enhance life initiatives They serve to establish a connection between name and cultural background and thus provide some information about cultural affinity and more such as express one s spirituality philosophy of life political or socio economic status as defined by a given ethnic cleavage African names tell stories convert abstract ideas to stories and tell story of the story about different aspects of one s life They commemorate any unusual circumstance the family or community once experienced or world event that took place around the time of a child s birth Outside a given cultural environment names boost and nurture cultural pride and identity showcase a people s appreciation of their culture and their readiness to defend and live their culture with pride and dignity Naming practices that tell histories behind the names were the norms in Nigeria Ibibio and in fact in Africa until the encroachment of two historical forces in Africans affairs Christianization and colonization more than any other forces in history shattered the connection between personal name and cultural affinity and have ever since contributed to the gradual erosion of African culture of names On the continent the combined efforts of their human agents the missionaries and British colonial personnel directly and indirectly through their policies and practices caused African Nigerians to give up their culture relevant names in favor of foreign ones Apart from direct erosion of culture of names colonial administration a term I use mostly to refer to the combined efforts of the missionaries and British colonial personnel in Nigeria abrogated many religious socio economic and political traditions which were intimately intertwined with the people s naming practices Their attempt to replace African traditions with European ones through coercing Africans to accept Western values and beliefs consequently disabled many desirable African traditional structures including authentic African naming practices and caused some to fall into disuse A third force was early European African trade Although the impact of the presence of European merchants in Nigeria was minimal in this regard some of their activities have also left a dent on African naming practices by introducing foreign bodies into the people s names database Even though these alien forces invaded and injected foreign values into Africa over a century ago their impact on naming practices continues to be felt by Africans European intrusion in relation to African naming practices did not end on the continent The Trans Atlantic Trade on human cargo was another major historical event that did not only forcefully disconnect many Africans from their cultural root and natural habitat but also mutilated authentic African naming practices among them Consequently Africans in Diaspora had European names imposed upon them by their slave masters Today many Africans on the continent and in Diaspora continue to carry names which are foreign names whose meanings

they do not know names the bearers can not even pronounce correctly in some ethnic contexts and names which have no relevance to nor any form of link with the bearers cultural background In effect culture of names as many other African customary practices has lost its savor Some peoples of African descent still cherish these colonized names Some do not and are making practical efforts to reclaim authentic African cul
