## **Calvinist Churches In Hungary:**

**Calvinist Churches in Hungary**, 1992     Calvinism on the Frontier, 1600-1660 Graeme Murdock, 2000-08-03 This is the first book to examine one of Europe's largest Protestant communities in Hungary and Transylvania. It highlights the place of the Hungarian Reformed church in the international Calvinist world and reveals the impact of Calvinism on Hungarian politics and society. Calvinism attracted strong support in Hungary and Transylvania where one of the largest Reformed churches was established by the early seventeenth century. Understanding of this Hungarian Reformed church remains the most significant missing element in the analysis of European Calvinism. The Hungarian Reformed church survived on narrow ground between the Habsburgs and Turks thanks to support from Transylvania's princes and local nobles. They worked with Reformed clergy to maintain contact with western co-religionists to combat confessional rivals to improve standards of education and to impose moral discipline. However, there were also tensions within the church over further reforms of public worship and church government and over the impact of puritanism. This book examines the development of the Hungarian church within the international Calvinist community and the impact of Calvinism on Hungarian politics and society.

**History of the Protestant Church in Hungary, from the Beginning of the Reformation to 1850; with Reference Also to Transylvania** Protestant Church (Hungary), 1854     The Lean Years Gyula Gombos, 2012-05-01     **History of the Reformed Church of Hungary** Ferenc Balogh, 1906     In Defense of Christian Hungary Paul Hanebrink, 2018-09-05 In this important historical account of the role that religion played in defining the political life of a modern national society Paul A. Hanebrink shows how Hungarian nationalists redefined Hungary a liberal society in the nineteenth century as a narrowly Christian nation in the aftermath of World War I. Drawing on impressive archival research Hanebrink uncovers how political and religious leaders demanded that Christian values influence public life while insisting that religion should never be reduced to the status of a simple nationalist symbol. In *In Defense of Christian Hungary* also explores the emergence of the idea that a destructive Jewish spirit was the national enemy. In combining the historical study of antisemitism with more recent considerations of religion and nationalism Hanebrink addresses an important question in Central European historiography: how nations that had been inclusive of Jews before World War I became rabidly antisemitic during the interwar period. As he traces the crucial and complex legacy of religion's role in shaping exclusionary antisemitic politics in Hungary Hanebrink follows the process from its origins in the 1890s to the Holocaust and beyond. More broadly *In Defense of Christian Hungary* squarely addresses the relationship between antisemitic words and antisemitic violence and between religion and racial politics, deeply contested issues in the history of twentieth-century Europe. The Hungarian example is a chilling demonstration of how religious nationalism can find a home even within a pluralist and tolerant civil society.     Racial Problems in Hungary Robert William Seton-Watson, 1908     **A Short Account of the Hungarian Reformed Church** Lajos Csiky, 1877
