The Cambridge Companion to English Literature, 1650-1740 Steven N. Zwicker, 1998-06-18 This volume offers an account of English literary culture in one of its most volatile and politically engaged moments From the work of Milton and Marvell in the 1650s and 1660s through the brilliant careers of Dryden Rochester and Behn Locke and Astell Swift and Defoe Pope and Montagu the pressures and extremes of social political and sexual experience are everywhere reflected in literary texts in the daring lyrics and intricate political allegories of this age in the vitriol and bristling topicality of its satires as well as in the imaginative flight of its mock epics fictions and heroic verse The volume s chronologies and select bibliographies will guide the reader through texts and events while the fourteen essays commissioned for this Companion will allow us to read the period anew

Women as Translators in Early Modern England Deborah Uman, 2012 This book considers both the practice and representation of translation in works penned by early modern women including Margaret Tyler Mary Sidney Herbert Anne Lock Katherine Philips and Aphra Behn

Aphra Behn (1640-1689) Mary Ann O'Donnell, Bernard Dhuicq, 2005

Queenly Philosophers Jane Duran, 2017-09-20

Recent work on the Platonic notion of the Guardian has focused on the female Guardian or Philosopher Queen but mainly insofar as the idea is problematic Okin Saxonhouse and others have tried to be more precise about the concepts involved this work aims to use actual publications by British and continentally trained women aristocrats of the sixteenth and seventeenth centuries to fill in the lacunae It is concluded that these women were not only philosophical thinkers but in some sense Guardians Their overview encompassed notions of duty care and a concern of the development of the intellectual life that left a mark for future generations

Women's War Drama in England in the Seventeenth Century Brenda Josephine Liddy, 2008 This book examines representations of women and war in female authored drama composed in seventeenth century England between the years 1645 and 1689 It examines how women's writing was influenced by the war and how at the same time women were creating a discourse of war It examines the legacy of the bloody events of the Civil War and their representation in early modern women's drama The study focuses on three key areas representations of women's communities representations of female warriors and representations of women as peacemakers The plays are thus considered thematically rather than chronologically The book is organized around focal points starting with the representations of women's community in early modern drama in chapters two and three moving on to representations of female warriors in chapters four and five and finally considering representations of peacemakers in chapters six and seven The present research shows that the work of these extraordinary women was created by the Civil War culture and that because of their interaction with the war they were also shaping a literary discourse of war Attention to these women's texts reveals their social embedment in early modern history and discloses the historicity of texts and the textuality of history This book sets a precedent by establishing a model for women's war drama this has never been done before in previous studies and thus this book makes

an innovative and significant contribution to the field Extremely well researched this book provides the reader with an understanding of theoretical perspectives relevant criticism and women s dramatic writing of the seventeenth century

Aphra Behn Stages the Social Scene in the Restoration Theatre Dawn Lewcock,2008 Usually recognised as the first professional woman writer Aphra Behn 1640 1689 has become a popular subject for academic study The study considers the ways in which Behn constructed her plays and used their staging to ensure the perceptions and apprehensions she wanted from that audience It considers the ways in which her use of the scenic stage developed from contemporary staging acting styles and changing stage conventions and how she used these to contribute to the reception and understanding of her plays by the audience The audience s reactions to events on stage are as much part of the theatrical experience as the dialogue and actions of the players and are based on their implicit understanding of the relationship of their own life experiences to those shown on stage In almost all her plays Aphra Behn was showing the restoration audience their own lives and behaviour writ large

The Cambridge Companion to Women's Writing in Britain, 1660-1789 Catherine Ingrassia,2015-04-20 Women writers played a central role in the literature and culture of eighteenth century Britain Featuring essays on female writers and genres by leading scholars in the field this Companion introduces readers to the range significance and complexity of women s writing across multiple genres in Britain between 1660 and 1789 Divided into two parts the Companion first discusses women s participation in print culture featuring essays on topics such as women and popular culture women as professional writers women as readers and writers and place and publication Additionally part one explores the ways women writers crossed generic boundaries The second part contains chapters on many of the key genres in which women wrote including poetry drama fiction early and later history the ballad periodicals and travel writing The Companion also provides an introduction surveying the state of the field an integrated chronology and a guide to further reading

though not riches among her good sweet honey candied readers Many of her works were openly erotic indeed as frank as anything by her friends Wycherley and Rochester Some also offered an inside view of court and political intrigues and Todd reveals the historical scandals and legal cases behind some of Behn s most famous fictions Janet Todd novelist and internationally renowned scholar was president of Lucy Cavendish College Cambridge and a Professor at Rutgers NJ An expert on women s writing and feminism she has written about many writers including Jane Austen the Shelley Circle Mary Wollstonecraft and Aphra Behn Ground breaking it reads quickly and lightly Even Todd s throwaway lines are steeped in learning Women s Review of Books A major biography of interest to everyone who cares about women as writers Times Higher Education Supplement **The Eighteenth Century** American Society for Eighteenth-Century Studies,2004 In their hundreds of entries and reviews the editorial staff have expanded both the quantity and depth of the work but also re evaluated the subject headings to better reflect the needs of users be they professionals or students General categories include printing and bibliographical studies historical social and economic studies philosophy
