Companion to the Roman Republic Harriet I. Flower,2007 **The Cambridge Companion to the Roman Republic**

Harriet I. Flower,2014 The Cambridge Companion to the Roman Republic examines all aspects of Roman history and civilization from 509 to 49 BC The key development of the republican period was Rome s rise from a small city to a wealthy metropolis which served as the international capital of an extensive Mediterranean empire These centuries produced a classic republican political culture closely associated with the growth of a world empire They also witnessed the slow disintegration of republican government under the relentless and combined pressure of external commitments growing internal dissension and the boundless ambition of successful military leaders In the second edition of this Companion volume distinguished European Canadian and American scholars present a variety of lively current approaches to understanding the political military and social aspects of Roman history as well as its literary and visual culture The second edition includes a new introduction three new chapters on population slavery and the rise of empire and updated bibliographies and maps

A Companion to the Roman Republic Nathan Rosenstein,Robert Morstein-Marx,2010-02-01 This Companion provides an authoritative and up to date overview of Roman Republican history as it is currently practiced Highlights recent developments including archaeological discoveries fresh approaches to textual sources and the opening up of new areas of historical study Retains the drama of the Republic s rise and fall Emphasizes not just the evidence of texts and physical remains but also the models and assumptions that scholars bring to these artefacts Looks at the role played by the physical geography and environment of Italy Offers a compact but detailed narrative of military and political developments from the birth of the Roman Republic through to the death of Julius Caesar Discusses current controversies in the field **The**

Cambridge Companion to Ancient Rome Paul Erdkamp,2013-09-05 Rome was the largest city in the ancient world As the capital of the Roman Empire it was clearly an exceptional city in terms of size diversity and complexity While the Colosseum imperial palaces and Pantheon are among its most famous features this volume explores Rome primarily as a city in which many thousands of men and women were born lived and died The thirty one chapters by leading historians classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply from policing and riots to domestic housing from death and disease to pagan cults and the impact of Christianity Richly illustrated the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non specialists **Commanders and Command in the Roman Republic and**

Early Empire Fred K. Drogula,2015-04-13 In this work Fred Drogula studies the development of Roman provincial command

using the terms and concepts of the Romans themselves as reference points Beginning in the earliest years of the republic Drogula argues provincial command was not a uniform concept fixed in positive law but rather a dynamic set of ideas shaped by traditional practice Therefore as the Roman state grew concepts of authority control over territory and military power underwent continual transformation This adaptability was a tremendous resource for the Romans since it enabled them to respond to new military challenges in effective ways But it was also a source of conflict over the roles and definitions of power The rise of popular politics in the late republic enabled men like Pompey and Caesar to use their considerable influence to manipulate the flexible traditions of military command for their own advantage Later Augustus used nominal provincial commands to appease the senate even as he concentrated military and governing power under his own control by claiming supreme rule In doing so he laid the groundwork for the early empire's rules of command

Restraint, Conflict, and the Fall of the Roman Republic Paul Belonick, 2023 *Restraint Conflict and the Fall of the Roman Republic* proposes a new explanation for the collapse of the Roman Republic arguing that the collapse was due not to lost morals but instead to disintegration of consensus around how to apply them

The Cambridge Companion to the Writings of Julius Caesar Luca Grillo, Christopher B. Krebs, 2017-12-28 Well known as a brilliant general and politician Julius Caesar also played a fundamental role in the formation of the Latin literary language and remains a central figure in the history of Latin literature With twenty three chapters written by renowned scholars this Companion provides an accessible introduction to Caesar as an intellectual along with a scholarly assessment of his multiple literary accomplishments and new insights into their literary value The Commentarii and Caesar's lost works are presented in their historical and literary context The various chapters explore their main features the connection between literature state religion and politics Caesar's debt to previous Greek and Latin authors and his legacy within and outside of Latin literature The innovative volume will be of great value to all students and scholars of Latin literature and to those seeking a more rounded portrait of the achievements of Julius Caesar

The Cambridge Companion to the Roman Historians Andrew Feldherr, 2009-09-24 An introduction to how the history of Rome was written in the ancient world and its impact on later periods It presents essays by an international team of scholars that aim both to orient non specialist readers to the important concerns of the Roman historians and also to stimulate new research

Supplanting Empires Kendall Stiles, 2024-12-15 *Supplanting Empires Power Transitions Across Human History* undertakes to systematically probe whether power transitions across human history are as disruptive and violent as conventional thinking would lead us to believe The findings point to a generally smooth changeover from one empire or hegemon to the next

Julius Caesar and the Transformation of the Roman Republic Tom Stevenson, 2014-10-30 *Julius Caesar and the Transformation of the Roman Republic* provides an accessible introduction to Caesar's life and public career It outlines the main phases of his career with reference to prominent social and political concepts of the time This approach helps to explain his aims ideals and motives as rooted in tradition and demonstrates that Caesar's rise to power

owed much to broad historical processes of the late Republican period a view that contrasts with the long held idea that he sought to become Rome's king from an early age This is an essential undergraduate introduction to this fascinating figure and to his role in the transformation of Rome from republic to empire *The Cambridge Companion to Roman Law* David Johnston, 2015-02-16 This book reflects the wide range of current scholarship on Roman law The essays newly commissioned for this volume cover the sources of evidence for classical Roman law the elements of private law as well as criminal and public law and the second life of Roman law in Byzantium in civil and canon law and in political discourse from AD 1100 to the present Roman law nowadays is studied in many different ways which is reflected in the diversity of approaches in the essays Some focus on how the law evolved in ancient Rome others on its place in the daily life of the Roman citizen still others on how Roman legal concepts and doctrines have been deployed through the ages All of them are responses to one and the same thing the sheer intellectual vitality of Roman law which has secured its place as a central element in the intellectual tradition and history of the West *The Cambridge Companion to Cicero* C. E. W. Steel, 2013-05-02 A comprehensive and authoritative account of one of the greatest and most prolific writers of classical antiquity *How Republics Die* Frederik Juliaan Vervaet, David Rafferty, Christopher J. Dart, 2025-05-19 Authoritarianism is everywhere on the advance democracies seem fragile and threatened We console ourselves that where rule by the people has long established itself it has never collapsed from internal causes Except it did once in Rome This book gathers together Roman historians with political scientists and scholars of other periods of authoritarian takeover to explore how open and democratic political systems have historically fallen prey to autocrats The Late Roman Republic is the main focus with a mix of large scale thematic and analytical chapters paired with more detailed case studies from some of the leading scholars in the field Other chapters widen the scope analysing comparable cases from ancient Athens to Napoleon to Hitler's Germany and Franco's Spain The book as a whole draws on contemporary political science scholarship on democratic decay and competitive authoritarianism It shows that these concepts are not only applicable to modern states but that we can properly use them to study past democratic collapses as well This provides the tools for a more historically informed understanding of how republics die as part of a renewed conversation between historians and political scientists **The Journal of Classics Teaching**, 2004 *Cicero's Consulship Campaign* Melvin George Lowe Cooley, 2009 This volume includes the SGE and other key texts relating to his election as consul for 63 BC including two letters to Atticus Asconius commentary on Cicero's lost speech as a candidate and extracts from pro Murena Contains introduction notes on all texts glossary and bibliography **The Cambridge Companion to Ancient Rome** Paul Erdkamp, 2013 Rome was the largest city in the ancient world As the capital of the Roman Empire it was clearly an exceptional city in terms of size diversity and complexity While the Colosseum imperial palaces and Pantheon are among its most famous features this volume explores Rome primarily as a city in which many thousands of men and women were born lived and died The thirty one chapters by leading historians

classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply from policing and riots to domestic housing from death and disease to pagan cults and the impact of Christianity Richly illustrated the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non specialists *Roman Crossings* Kathryn Welch, T. W. Hillard, 2005 Eleven new essays from an international cast trace the development of political culture in the Roman Republic Themes include the flourishing of civic society as with the introduction of the Roman Games and the emergence of a theory of politeness How was a Roman aristocrat formed How did the term Optimates develop from the middle Republic onwards And how especially did the rhetoric of Cicero reflect and adapt to the pressures of civil war in the Republic s climactic and dying years *Democracy in the Ancient World* Terrot Reaveley Glover, 1927

Cambridge Companion To The Roman Republic Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Cambridge Companion To The Roman Republic**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
