Calling From Diffusion Hermeneutics Of The Promenade:

Calling from Diffusion Thomas M. Greene, 2002 Based on four Nielson Lectures delivered at Smith College this book examines a series of promenade poems lyrics that follow a poetic speaker moving through a landscape and responding to it Thomas M Greene invites the reader to consider a wide range of poets beginning with Amy Clampitt and A R Ammons continuing with Petrarch Ronsard Saint Amant Milton Vaughan and Marvell and concluding with two representative Romantics Wordsworth and Whitman Greene s discussions of this rich body of texts stimulate reflection at several levels They can be read first of all simply as analyses of several memorable poems exhibiting a similar structure over a period of seven centuries They can also be read as meditations on the workings of lyric poetry which is always attempting to bring into sharper focus the sensibility of a speaker whose emergence depends on her naming and evoking the objects surrounding her Thus Greene argues that the distinction of a poetic consciousness lies in its permeability permitting a more intimate interplay between internal and external realms His title is drawn from a line by Whitman You objects that call from diffusion my meanings and give them shape Finally at yet another level Greene s book presents a way of thinking about language which recalling the Heideggerean theory of ereignis suggests that only through the projective act of naming can human beings assimilate things through intuitive knowledge An afterword *The Morality of Literary Interpretation* surveys critically a range of hermeneutic theories and formulates a position that accords the literary text both autonomy and mystery *The Anatomy of Influence* Harold Bloom, 2011-01-01 In this his most comprehensive and accessible study of influence Bloom leads readers through the labyrinthine paths which link the writers and critics who have informed and inspired him for so many years

Poetry, Signs, and Magic Thomas M. Greene, 2005 Poetry Signs and Magic brings together in a single volume fourteen new and previously published essays by the eminent Renaissance scholar and literary critic Thomas M Greene This collection looks back toward two earlier volumes by Greene his first essay collection *The Vulnerable Text* Essays on Renaissance Literature and *Poesie et Magie* whose theme is here explored again at greater length and depth from linguistic and literary critical perspectives Greene argues that certain poetic gestures draw their peculiar strengths by serving as vestiges of poetry s ancestral acts magic prayer and invocation Poetry in other words feigns an earlier power but in this diminishment there occurs a verbal subtlety and figural poignancy commonly associated with art s aesthetic pleasures Greene employs his well known skills as a close reader to texts by a range of writers including a variety of contemporary theorists in diverse contexts the distinction between disjunctive and conjunctive linguistics dual theories of sound and meaning of crucial importance to Plato and Aristotle to Catholic and Protestant debates on the sacraments to the more recent skeptical methodologies of Derrida and de Man Thomas M Greene was a Professor of English and Comparative Literature at Yale University Samuel Beckett and the Second World War William Davies, 2020-12-10 In the wake of the Second World War Samuel Beckett wrote some of the most significant literary works of the 20th century This is the first full length historical study to examine the far

reaching impact of the war on Beckett's creative and intellectual sensibilities Drawing on a substantial body of archival material including letters manuscripts diaries and interviews as well as a wealth of historical sources this book explores Beckett's writing in a range of political contexts from the racist dogma of Nazism and aggressive traditionalism of the Vichy regime to Irish neutrality censorship and the politics of recovery in the French Fourth Republic Along the way Samuel Beckett and the Second World War casts new light on Beckett's political commitments and his concepts of history as they were formed during Europe's darkest hour

Forms of Poetic Attention Lucy Alford, 2020-01-28 A poem is often read as a set of formal technical and conventional devices that generate meaning or affect However Lucy Alford suggests that poetic language might be better understood as an instrument for tuning and refining the attention Identifying a crucial link between poetic form and the forming of attention Alford offers a new terminology for how poetic attention works and how attention becomes a subject and object of poetry *Forms of Poetic Attention* combines close readings of a wide variety of poems with research in the philosophy aesthetics and psychology of attention Drawing on the work of a wide variety of poets such as T S Eliot Wallace Stevens Frank O'Hara Anne Carson Theresa Hak Kyung Cha Harryette Mullen Al Khans Rainer Maria Rilke Arthur Rimbaud and Claudia Rankine Alford defines and locates the particular forms of attention poems both require and produce She theorizes the process of attention making its objects its coordinates its variables while introducing a broad set of interpretive tools into the field of literary studies *Forms of Poetic Attention* makes the original claim that attention is poetry's primary medium and that the forms of attention demanded by a poem can train hone and refine our capacities for perception and judgment on and off the page
