

A FIRST COURSE IN FLUID MECHANICS FOR CIVIL ENGINEERS

by
Donald D. Gray, Ph.D., P.E.

Water Resources Publications, LLC

The book cover features a photograph of a dam with water cascading over it. The water is captured in a long-exposure shot, creating a series of white, curved streaks that follow the contours of the dam's spillways. The background is a soft, hazy landscape with some greenery and a bright light source, possibly the sun, creating a lens flare effect in the lower-left corner. The overall color palette is dominated by blues, greys, and whites, with some green and yellow highlights from the background.
