*Pagan* Michael A. Aung-Thwin, 2019-03-31 Pagan The Origin of Modern Burma offers major contributions in three areas the manner in which it integrates original indigenous source material with social science theory the significant association it makes between religion and the economy of redistribution and the model it provides for the rise and decline of a major Buddhist kingdom in Southeast Asia This is an important book for Southeast Asia scholars and Burma specialists It will be

standard reference work for historians social scientists and philologists with an interest in Southeast Asia Readers interested in general issues of church and state religion and society as well as those more specifically concerned with historic and institutional Buddhism will find it a valuable work *A Guide to World Language Dictionaries* Andrew Dalby,1998 This single volume reference offers a practical evaluative guide to the main general dictionaries of the world s languages It provides selective critical annotations to help users choose the most appropriate dictionary for their purpose **Spirit Possession in Buddhist Southeast Asia** Bénédicte Brac de la Perrière ,Peter A. Jackson,2022-03-31 In dramatic contrast to the reported growing influence of doctrinal and fundamentalist forms of religion in some parts of Southeast Asia the predominantly Buddhist societies of the region are witnessing an upsurge of spirit possession cults and diverse forms of magical ritual This is found in many social strata including the urban poor rising middle classes and elite groups and across the different political systems of Myanmar Thailand Cambodia and Vietnam This volume reveals both the central historical place of spirit possession rituals in the Buddhist cultures of mainland Southeast Asia and their important contemporary roles to enhance prosperity and protection This book examines the increasing prominence of spirit mediumship and divination across the region by exploring the interplay of neoliberal capitalism visual media the network cultures of the Internet and the politics of cultural heritage and identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of inherently modern conditions **Burma, a Selective Guide to Scholarly Resources** Anita Hibler,William P. Tuchrello,1986 **Michigan Papers on South and Southeast Asia** ,1971 **Myth and History in the Historiography of Early Burma** Michael Aung-Thwin,1998 After a Careful re reading of primary sources written in Old Burmese author Michael A Aung Thwin set about tracing the history of five key events that took place during the Kingdom of Pagan in order to disentangle that history from myth He found that four of the five events which have been considered the most important in the history of early Burma are actually inventions of late nineteenth and twentieth century colonial historians caught in their own intellectual and political world A fifth is a genuine indigenous Burmese myth but it too has been embellished by modern historians Aung Thwin concludes that these five key events which have been taught as Burmese history for the past hundred years actually have no basis in history *The Journal of Burma Studies* ,2008 *ꠠꠠꠠꠠꠠꠠ* ,1986 *International Cataloguing* ,1977 **Irrigation in the Heartland of Burma** Michael Aung-Thwin,1990 **The Hsaya San Rebellion (1930-1932) Reappraised** Patricia Herbert,1982 **The Academic Who's who** ,1975 *Crossroads* ,1997
