

Nature vs. Nurture

Biologists believe that environmental influences modify genetic inheritance. They also believe that many behaviors are determined by a combination of inheritance and environmental influences. In fact, a combination of both is often the most accurate description of human behavior. Some researchers believe that the environment is the most important factor in determining human behavior, while others believe that the most important factor is genetic inheritance.

Biologists believe that both nature and nurture play a role in determining human behavior. They believe that genetic inheritance is the most important factor in determining human behavior, but that the environment also plays a role.
