Land Use Planning A Casebook 2nd Edition:

Approaches to Planning Ernest R. Alexander, 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company *Lake Effects* Ronald R. Weiner, 2005 *Lake Effects* is a history of urban policy making in the large Midwestern industrial city of Cleveland Ohio Urban policy making requires goal setting in four critical areas economic development urban growth services and wealth redistribution Ronald Weiner shows how urban policy was conceived and implemented by the local governing elites or regimes between 1825 and 1929 Each regime Merchant Populist Corporate and Realty set policy goals in the four areas set priorities among the goals and used their power public and private to guide the city toward these ends Each regime dominated policy making for at least twenty years and the successes and failures of each regime contribute to our understanding of how Cleveland became the city that it is today The successes of the Merchant Regime s economic development policy made Cleveland s industrialization possible The urban growth policy of the Corporate Regime built the downtown civic center and University Circle However the Populist Corporate and Realty regimes failures to plan for Cleveland s economic future helped set in motion the declining economic fortunes so harshly in evidence today and the triumph of the expansionist Realty Regime s urban growth policy promoted heedless suburban development at the expense of the central business district and inner city Book jacket

Cases and Materials on Appellate Practice and Procedure Robert J. Martineau, 1987 *Energy law in South Africa* Willemien du Plessis, 2020-04-20 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides a systematic approach to legislation and legal practice concerning energy resources and production in South Africa The book describes the administrative organization regulatory framework and relevant case law pertaining to the development application and use of such forms of energy as electricity gas petroleum and coal with attention as needed to the pervasive legal effects of competition law environmental law and tax law A general introduction covers the geography of energy resources sources and basic principles of energy law and the relevant governmental institutions Then follows a detailed description of specific legislation and regulation affecting such factors as documentation undertakings facilities storage pricing procurement and sales transportation transmission distribution and supply of each form of energy Case law intergovernmental cooperation agreements and interactions with environmental tax and competition law are explained Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for energy sector policymakers and energy firm counsel handling cases affecting South Africa It will also be welcomed by researchers and academics for its contribution to the study of a complex field that today stands at the foreground of comparative law
