Drawing on historical sources myth and folklore *Fantastic Creatures in Mythology and Folklore* explores the roles of fantastical beasts particularly the unicorn the mermaid and the dragon in a series of thematic chapters organised according to their legendary dwelling place be this land sea or air Through this original approach Juliette Wood provides the first study of mythical beasts in history from the medieval period to the present day providing new insights into the ways these creatures continue to define our constantly changing relationship to both real and imagined worlds It places particular emphasis on the role of the internet computer games and the cyberspace community and in doing so demonstrates that the core medieval myth surrounding these creatures remains static within the ever increasing arena of mass marketing and the internet This is a vital resource for undergraduates studying fantastic creatures in history literature and media studies

Fantastic Creatures Ivor Baddiel, Tracey Blezard, 1999 Looks at magical creatures such as dragons werewolves and vampires little people and other mysterious creatures *The Encyclopedia of Fantastic Film* R. G. Young, 2000-04 Thirty five years in the making and destined to be the last word in fanta film references This incredible 1 017 page resource provides vital credits on over 9 000 films 1896 1999 of horror fantasy mystery science fiction heavy melodrama and film noir Comprehensive cast lists include directors writers cinematographers and composers Also includes plot synopses critiques re title translation information running times photographs and several cross referenced indexes by artist year song etc Paperback **Isolated Cases** Nancy Yousef, 2018-07-05 The literature of the romantic period has consistently been seen as the source of modern concepts of the individual Nancy Yousef maintains however that the dominant account of the self in

romanticism is in need of profound revision While individuals presented in central texts of the period are indeed often alone or separated from others Yousef regards this isolation as a problem the texts attempt to illuminate rather than a condition they construct as normative or desirable As her argument moves from the eighteenth to the nineteenth century through both philosophical and literary writing her book offers a new account of autonomy and of the complex romantic inheritance of enlightenment preoccupations with the origins of human association and the course of human development In her richly interdisciplinary book Nancy Yousef addresses the emergence of autonomy demonstrating that the ideal was beset from its beginnings by profound concerns over the possibilities and grounds of human relations and interdependence Isolated Cases draws attention to the strain of intersubjective anxieties and longings hidden within representations of the individual as self sufficient and self defining Among the writers and thinkers Yousef treats at length are John Locke John Stuart Mill Jean Jacques Rousseau Mary Shelley and William Wordsworth

Creature Fantastic Denise Little,2001 If you've ever yearned to meet such legendary creatures as dragons unicorns the phoenix or even cats and dogs gifted with talents of mythological proportions here is your chance to befriend them all In this all original collection some of fantasy's finest tale spinners have woven their own unique legends breathing new life into those most ancient of mythological beasties From a wizard who uses art to save dragons and other creatures endangered by our modern world to a unicorn store at the mall whose stock in trade is more than it seems to a phoenix who is tired of the cycle of death and renewal to a half breed dog whose part magical pedigree could endanger his new human here are enchanting tales that will have you ready to adopt these spellbinding creatures for your very own
