**Compassionate Reasoning** Marc Gopin,2022 People who work in helping professions have in common Marc Gopin argues a set of cultivated moral character traits and psychosocial skills They tend to be kinder more reasonable more self controlled and more goal oriented to peace They are united by a particular set of moral values and the emotional skills to put those values into practice allowing them to excel in what he calls Compassionate Reasoning In this book Gopin draws upon the history of ethics along with his own thirty year career in the field of peacebuilding to develop an understanding of decisions that we are all forced to make in life s many ethical gray zones The very multiplicity of approaches to ethics says Gopin invites us to look for higher principles and intuitions

**Judging and Understanding** Dr Pedro Alexis Tabensky,2012-10-01 This collection embodies a debate that explores what could be characterised as the tension between judging and understanding It seems that after a particular threshold of understanding of the basic facts leading to a given moral transgression the more we understand the context and motives leading to crime the more likely we are to abstain from harsh retributive judgement Martha Nussbaum s essay Equity and Mercy included in this collection is the philosophical starting point of this debate and Bernhard Schlink s novel The Reader a novel exploring the tension between judging and understanding among other things is used as a case study by most contributors Some contributors situated at one end of the spectrum of views represented in this collection argue for the wholesale elimination of our practices of retribution in the light of the tension between judging and understanding while contributors on the other side of the spectrum argue that the tension does not actually exist A whole array of intermediate positions including Nussbaum s are represented This anthology is comprised of nearly all specially commissioned essays bringing together work dealing with the moral metaphysical epistemological and phenomenological issues required for properly understanding whether in fact there is a tension between judging and understanding and what the moral and legal implications may be of accepting or rejecting this tension
