Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines
creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in
narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a
scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how
writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as
features standards for evaluating creatively and analytically constructed text Further the author s examination of the
aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The
reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative
methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners
and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the
beginning of her work is very fitting and certainly promises to illustrate those words **Robert Kroetsch and His Works**

Susan Richmond, 2015-03-13 In four decades of abstract art practice Lynda Benglis has not merely challenged the status quo
She has tied it in knots melted it down and poured it across the floor cast it in glass clay and bronze Daring and sometimes
outrageous her intense and provocative practice has produced some of the most iconic pieces of art from the late twentieth
century Richmond gives serious critical attention to work often dismissed as trivial and rootless recovering the themes that
link the different phases of the artist s quest to capture the frozen gesture Whether challenging popular tastes and
definitions of art with her 1970s abstract knotwork or mocking puritanical aesthetics of gender with her colourful latex
pourings and their allusions to corporeal topographies Benglis never failed to provoke Her sculptures commemorate and
celebrate the processes of creation themselves combining architectonic abstraction and feminized sensuality in a haunting
visceral theme of the strangeness of the body that runs through all her experiments in glass video metals ceramics gold leaf
paper and plastics Lynda Benglis Beyond Process examines in depth the work and critical neglect of an artist who perhaps
more than any of her contemporaries changed the face of American art in the 1960s and 1970s and continues to fetishise
