Developing Skills George Kenyon,2014-11-26 Problem solving consists of using generic or ad hoc methods in an orderly manner for finding solutions to problems Some of the problem solving techniques developed and used in artificial intelligence

computer science engineering mathematics medicine etc are related to mental problem solving techniques studied in psychology The term problem solving is used in many disciplines sometimes with different perspectives and often with different terminologies For instance it is a mental process in psychology and a computerized process in computer science Problems can also be classified into two different types ill defined and well defined from which appropriate solutions are to be made Ill defined problems are those that do not have clear goals solution paths or expected solution Well defined problems have specific goals clearly defined solution paths and clear expected solutions These problems also allow for more initial planning than ill defined problems Being able to solve problems sometimes involves dealing with pragmatics logic and semantics interpretation of the problem The ability to understand what the goal of the problem is and what rules could be applied represent the key to solving the problem Sometimes the problem requires some abstract thinking and coming up with a creative solution

Creative Problem Solving Robert L. Flood,Michael C. Jackson,1991-09-06 Creative Problem Solving Total Systems Intervention Robert L Flood and Michael C Jackson Department of Management Systems and Sciences University of Hull UK In the modern world organisations are faced with innumerable

and multifaceted issues which cannot be captured in the minds of a few experts and solved with the aid of some super method It would be equally wrong to revert to a trial and error approach We need to retain rigorous and formalised thinking while admitting the need for a range of problem solving methodologies The future prospects of management science will be much enhanced if a the diversity of issues confronting managers is accepted b work on developing a rich variety of problem solving methodologies is undertaken and c we continually ask the question What kind of issue can be managed with which sort of methodology This volume Creative Problem Solving Total Systems Intervention amounts to the bringing together of a huge human effort in the area of the management sciences Each particular methodology that we have presented in this book is the realisation of years of work by many people and the management and organisation theory to which we refer goes back nearly a century and has employed armies of researchers Total systems intervention stands at the top of this mountain of effort and is able to offer an overview of the management oriented disciplines which enables managers and decision makers to gain a command over how to employ them as a whole
