everything you need to build successful relationships in all aspects of life as you move through your world with confidence and ease **The Oxford Handbook of Multicultural Identity** Veronica Benet-Martinez, Ying-Yi Hong, 2015-08-01

Multiculturalism is a prevalent worldwide societal phenomenon. Aspects of our modern life such as migration, economic globalization, multicultural policies, and cross border travel and communication have made intercultural contacts inevitable. High numbers of multicultural individuals: 23-43% of the population by some estimates can be found in many nations where migration has been strong e.g. Australia, U.S., Western Europe, Singapore or where there is a history of colonization e.g. Hong Kong. Many multicultural individuals are also ethnic and cultural minorities who are descendants of immigrants, majority individuals with extensive multicultural experiences or people with culturally mixed families, all people for whom identification and/or involvement with multiple cultures is the norm. Despite the prevalence of multicultural identity and experiences until the publication of this volume there has not yet been a comprehensive review of scholarly research on the psychological underpinning of multiculturalism. **The Oxford Handbook of Multicultural Identity** fills this void. It reviews cutting edge empirical and theoretical work on the psychology of multicultural identities and experiences. As a whole the volume addresses some important basic issues such as measurement of multicultural identity, links between multilingualism and multiculturalism, the social psychology of multiculturalism and globalization as well as applied issues such as multiculturalism in counseling, education, policy, marketing and organizational science to mention a few. This handbook will be useful for students, researchers and teachers in cultural, social, personality, developmental, acculturation and ethnic psychology. It can also be used as a source book in advanced undergraduate and graduate courses on identity and multiculturalism and a reference for applied psychologists and researchers in the domains of education, management and marketing.
