The Social Reality of Violence and Violent Crime Henry H. Brownstein,2000

This book is written in the form of stories that individually and collectively describe violence and violent crime in America in the twentieth century

Because violence means different things to different people this book attempts to show the many ways in which we as a

society think about violence and how these perceptions have developed in our society during the twentieth century Weaving

a personal narrative style together with official statistics media reports research findings and first hand accounts the author

illustrates the American experience and the social construction of various forms of violence Since the language of social

constructionism is often difficult to understand this book utilizes simple explanations of how violence and violent crime are

socially constructed This book succeeds in making an abstract but important theory accessible by grounding these

explanations in specific historical and biographical experiences of American society For anyone interested in understanding

violence
