**Who Are the Criminals?** John Hagan, 2012-08-26 How Americans came to fear street crime too much and corporate crime too little How did the United States go from being a country that tries to rehabilitate street criminals and prevent white collar crime to one that harshly punishes common lawbreakers while at the same time encouraging corporate crime through a massive deregulation of business Why do street criminals get stiff prison sentences a practice that has led to the disaster of mass incarceration while white collar criminals who arguably harm more people get slaps on the wrist if they are prosecuted at all In *Who Are the Criminals* one of America's leading criminologists provides new answers to these vitally important questions by telling how the politicization of crime in the twentieth century transformed and distorted crime policymaking and led Americans to fear street crime too much and corporate crime too little John Hagan argues that the recent history of American criminal justice can be divided into two eras the age of Roosevelt roughly 1933 to 1973 and the age of Reagan 1974 to 2008 A focus on rehabilitation corporate regulation and the social roots of crime in the earlier period was dramatically reversed in the later era In the age of Reagan the focus shifted to the harsh treatment of street crimes especially drug offenses which disproportionately affected minorities and the poor and resulted in wholesale imprisonment At the same time a massive deregulation of business provided new opportunities incentives and even rationalizations for white collar crime and helped cause the 2008 financial crisis and subsequent recession The time for moving beyond Reagan era crime policies is long overdue Hagan argues The understanding of crime must be reshaped and we must reconsider the relative harms and punishments of street and corporate crimes In a new afterword Hagan assesses Obama's policies regarding the punishment of white collar and street crimes and debates whether there is any evidence of a significant change in the way our country punishes them

**Crime** Clarence Darrow, 2012-11-01 True crime fans and readers interested in the history of American jurisprudence should definitely add *Crime Its Cause and Treatment* to their must read list Penned by famed lawyer Clarence Darrow this penetrating look at the origins of criminal behavior draws on Darrow's own experiences defending such infamous characters as the teenage thrill killers Leopold and Loeb

**Crime** Clarence Darrow, 1922 *In Their Own Words* Paul F. Cromwell, 1999 An anthology of ethnographic or field accounts of crime and criminals selected to give students unique perspectives on gang members burglars addicts rapists and white collar offenders These criminals discuss their motives perceptions decision making strategies and rationalizations for crime This second edition contains seven new studies adding more accounts of crimes committed by women youthful car thieves crack sales and research that analyzes crime as work Lacks a subject index Cromwell is affiliated with Wichita State University Annotation copyrighted by Book News Inc Portland OR

*Pride, the Criminal Mind, & Crime Prevention* Dwight Neumann, 2011-08-17 The first half of *Pride the Criminal Mind and Crime Prevention* provides the reader with summaries of common crimes processed in the criminal courts of California The crimes range from graffiti tagging to first degree murder The second part of this work turns to youngsters

as well as to students of criminology and the criminal justice system to offer a format for behaving ethically and avoiding criminality As a didactic tool it opens the doors to instructors for teaching through role playing sessions of personal life experiences which expose false pride and other human frailties The present study may be best suited as a textbook companion and reader for college majors of sociology psychology and the criminal justice system It offers an analysis after each summary of the criminal cases presented which addresses the perpetrators mentality motivation and rationalization for committing crimes As the title suggests pride is considered crucial in the criminal mind and can often be found as a catalyst justification and even a right to criminal behavior Criminal Types Col. Vincent Myron Masten, 2020-09-28 Very much in the printed page has been aimed wide of the mark alike of the prevention the deterrence and the reclamation of the predal felon It is intended that this semi technical volume shall help to call the truly reformative turn Also the intention is that the subject matter of the book shall at once amplify and re nforce conclusions reached in *The Crime Problem and Stop Thief* the author s previous publications A distinctively scientific treatise on crime and criminals is not essayed by the writer for the very good reason that such a treatise is not at this moment to any man s hand This because human society seethes in the most fateful transitional state of all time up to this time because human expression is more complex and varied than during any other period of human history because material values change with constantly changing conditions and because the criminal picks his tools and plys them agreeably with the pressure upon him of objective influences germane in those conditions of change The crass criminal presents no psychic problem He is much as he was impelled much as he was when cavemen carried clubs Having usually but mediocre mental equipment and being crowded out of the big games of life he has recourse naturally either to individual force or to crooked cunning with which to match the throws of his better equipped brothers By and large the issue with the low grade habitual forager is a very simple one in the final analysis he leaves society no choice other than to fight him with the like of his chosen weapons There will be isolated and sporadic exceptions to the general rule given but as to the grand majority of marauding criminals they must be met both in and out of prison with force more impressive than that which they employ palpably so else penal codes might as well be pigeon holed for containing meaningless proscriptions It is as all would like it when the force can be confined to educative measures so ordered for sustained averages as to encourage the imprisoned to help themselves but when they won t help just won t then steps must be taken which will make it practically impossible for them further to filch from their fellowmen If a thief will have it no other way than to be a thief then control of him and not his social rehabilitation must be the desideratum Circumstantial felons there will be so long as social circumstance makes for them Always a certain percentage will go down under the pressure of a closely competitive social scheme that recks but little of moral weaklings and less of physical slackers but such bear serious relation to criminal statistics in the sense only that they are dragged down to habitual crime appreciably by criminal recidivists by repeating felons who forage on society by choice who make no bones about it who shout stout defense of it and

who glory in it Crime, Its Causes and Remedies Cesare Lombroso,1918 **The Criminal** Havelock Ellis,1890 *In Their Own Words* Paul F.
