Honey And Ashes:

Honey and Ashes Janice Kulyk Keefer, 1998 From the acclaimed author of *The Green Library* a haunting memoir of family and home both lost and found of longing and belonging Janice Kulyk Keefer was born in Canada a country that for her immigrant family meant a land as free as the future itself But she was also born into the history of her family's homeland receiving both the gift and the burden of a past that often seems an equal spill of beauty and blood Now she has set out to build a bridge of words between contemporary Canada and the ancient village of Staromischyna once part of Poland now in Ukraine *Honey and Ashes* is novel like in its sweep of personal and public history and its ability to draw us into the complex mysteries of family It moves from an extraordinary wealth of stories about life in Staromischyna and Depression era Toronto to an absorbing account of how the complex troubled histories of Poland and Ukraine shadowed these stories and it ends with a difficult journey back to the actual place where the stories began It is a breathtaking book that will touch all those who feel compelled to search the landscape of memory for a glimpse of their true selves I stand over a river looking over the water to a distant shore When I was a child I crossed this river as though water were as natural an element to me as the air I breathed the earth under my feet But now I know the strength of the river's current Were I to step into these waters they would tug me upstream or down anywhere but across anywhere but where I long to be from *Honey and Ashes* HarperFlamingoCanada Kulyk Keefer's new work delights and disturbs she weaves a tale of love and betrayal as intricate as the embroidery on a Slavic shawl Maclean's *Honey and Ashes* Laurie Bruenn, 1931 **Honey & Ashes** Stephen Lewandowski, 1984 *From Honey to Ashes* Claude Lévi-Strauss, 1973 The entire book is a study of a myth system based on one fundamental opposition and found among the myths of South American Indians In *The Raw and the Cooked* the first volume of the series Levi Strauss finds a complex system associated with uncooked as against cooked items The qualities of being raw and cooked correspond to abstract ideas of nature and culture since only the man with the technology and social standards of culture will cook In *From Honey to Ashes* Levi Strauss spreads beyond the raw cooked opposition into a related though broader opposition This is the opposition between honey and tobacco two substances of great significance in the lives of the Indians as well as in their myths Although this volume is part 2 of the entire book is so designed that it may be approached without reference to the previous book Amazon **Honey & Ashes** Stephen Lewandowski, 1984 *Nineteenth Century and After*, 1887 **Honey to Ashes** Amy Wilson, 2005 **From Honey to Ashes V02 M** Claude Lévi-Strauss, 1990-11-01 *Wisconsin Beekeeping*, 1930 **Natural History**, 1973 **The Natural History of Pliny** Pliny (the Elder.), 1856 **Home and Exile** Eva Rein, Krista Vogelberg, 2006 **The Nineteenth Century**, 1887 *History of the Minnesota Horticultural Society...*, 1929 **Littell's Living Age**, 1887 *Biennial Report* Kansas State Horticultural Society, 1885 *The Living Age*, 1887 **Report of the Minnesota State Horticultural Society**, 1929 **"The" Natural History of Pliny**, 1856 *The Natural History of Pliny the Elder (Complete) and Old Greek Folk Stories*

Told Anew Pliny the Elder, Josephine Preston Peabody, 1897-01-01 Old Greek Folk Stories Told Anew by Josephine Preston Peabody is a collection of retold Greek myths and folk stories written during the late 19th century This work seeks to revive and present ancient tales that capture the joys sorrows and moral lessons inherent in human experience drawing upon characters and narratives from Greek mythology that remain influential in literature and culture At the start of this collection Peabody sets the stage for the enchanting tales ahead emphasizing the deep connection between humanity and nature The opening portion introduces Pan the nature god who celebrates his carefree life among rustic companions while recounting stories of transformed beings like Dryope Echo and Narcissus These early narratives hint at the themes of love loss and transformation that underpin much of Greek mythology preparing readers for a rich exploration of various characters and events to follow including curious fables about other notable figures such as Prometheus and Midas who grapple with the consequences of their desires and actions Caius Plinius Secundus was born either at Verona or Novum Comum now Como in Cisalpine Gaul in the year A U C 776 and A D 23 It is supposed that his earlier years were spent in his native province and that he was still a youth when he removed to Rome and attended the lectures of the grammarian Apion It was in about his sixteenth year that he there saw Lollia Paulina as in the following she was divorced by Caligula and it was probably in his twentieth that he witnessed the capture of a large fish at Ostia by Claudius and his attendants and in his twenty second that he visited Africa Egypt and Greece In his twenty third year Pliny served in Germany under the legatus Pomponius Secundus whose friendship he soon acquired and was in consequence promoted to the command of an ala or troop of cavalry During his military career he wrote a treatise now lost On the Use of the Javelin by Cavalry and travelled over that country as far as the shores of the German Ocean besides visiting Belgic Gaul In his twenty ninth year he returned to Rome and applied himself for a time to forensic pursuits which however he appears soon to have abandoned About this time he wrote the life of his friend Pomponius and an account of the Wars in Germany in twenty books neither of which are extant Though employed in writing a continuation of the Roman History of Aufidius Bassus from the time of Tiberius he judiciously suspended its publication during the reign of Nero who appointed him his procurator in Nearer Spain and not improbably honoured him with equestrian rank It was during his sojourn in Spain that the death of his brother in law C C cilius left his nephew C Plinius C cilius Secundus the author of the Letters an orphan whom immediately upon his return to Rome A D 70 he adopted receiving him and his widowed mother under his roof Having been previously known to Vespasian in the German wars he was admitted into the number of his most intimate friends and obtained an appointment at court the nature of which is not known but Rezzonico conjectures that it was in connexion with the imperial treasury Though Pliny was on intimate terms also with Titus to whom he dedicated his Natural History there is little ground for the assertion sometimes made that he served under him in the Jewish wars His account of Palestine clearly shows that he had never visited that country It was at this period that he published his Continuation of the History of Aufidius Bassus From the titles which he gives to Titus in the

dedicatory preface it is pretty clear that his Natural History was published A D 77 two years before his death In A D 73 or 74 he had been appointed by Vespasian pr fect of the Roman fleet at Misenum on the western coast of Italy It was to this elevation that he owed his romantic death somewhat similar it has been remarked to that of Empedocles who perished in the crater of Mount tna The closing scene of his active life simultaneously with the destruction of Herculaneum and Pompeii cannot be better described than in the language employed by his nephew in an Epistle to his friend Tacitus the historian My uncle was at Misenum where he was in personal command of the fleet On the ninth day before the calends of September at about the seventh hour 1 P M my mother observing the appearance of a cloud of unusual size and shape mentioned it to him After reclining in the sun he had taken his cold bath he had then again lain down and after a slight repast applied himself to his studies Immediately upon hearing this he called for his shoes and ascended a spot from which he could more easily observe this remarkable ph nomenon The cloud was to be seen gradually rising upwards though from the great distance it was uncertain from which of the mountains it arose it was afterwards however ascertained to be Vesuvius In appearance and shape it strongly resembled a tree perhaps it was more like a pine than anything else with a stem of enormous length reaching upwards to the heavens and then spreading out in a number of branches in every direction I have little doubt that either it had been carried upwards by a violent gust of wind and that the wind dying away it had lost its compactness or else that being overcome by its own weight it had decreased in density and become extended over a large surface at one moment it was white at another dingy and spotted just as it was more or less charged with earth or with ashes To a man so eager as he was in the pursuit of knowledge this appeared to be a most singular ph nomenon and one that deserved to be viewed more closely accordingly he gave orders for a light Liburnian vessel to be got ready and left it at my option to accompany him To this however I made answer that I should prefer continuing my studies and as it so happened he himself had just given me something to write Taking his tablets with him he left the house The sailors stationed at Retina alarmed at the imminence of the danger for the village lay at the foot of the mountain and the sole escape was by sea sent to entreat his assistance in rescuing them from this frightful peril Upon this he instantly changed his plans and what he had already begun from a desire for knowledge he determined to carry out as a matter of duty He had the gallies put to sea at once and went on board himself with the intention of rendering assistance not only to Retina but to many other places as well for the whole of this charming coast was thickly populated Accordingly he made all possible haste towards the spot from which others were flying and steered straight onwards into the very midst of the danger so far indeed was he from every sensation of fear that he remarked and had noted down every movement and every change that was to be observed in the appearance of this ominous eruption The ashes were now falling fast upon the vessels hotter and more and more thickly the nearer they approached the shore showers of pumice too intermingled with black stones calcined and broken by the action of the flames the sea suddenly retreated from the shore where the debris of the mountain rendered landing quite impossible After hesitating for a moment

whether or not to turn back upon the pilot strongly advising him to do so Fortune favours the bold said he conduct me to Pomponianus Pomponianus was then at Stabi a place that lay on the other side of the bay for in those parts the shores are winding and as they gradually trend away the sea forms a number of little creeks At this spot the danger at present was not imminent but still it could be seen and as it appeared to be approaching nearer and nearer Pomponianus had ordered his baggage on board the ships determined to take to flight if the wind which happened to be blowing the other way should chance to lull The wind being in this quarter was extremely favourable to his passage and my uncle soon arriving at Stabi embraced his anxious friend and did his best to restore his courage and the better to re assure him by evidence of his own sense of their safety he requested the servants to conduct him to the bath After bathing he took his place at table and dined and that too in high spirits or at all events what equally shows his strength of mind with every outward appearance of being so In the mean time vast sheets of flame and large bodies of fire were to be seen arising from Mount Vesuvius the glare and brilliancy of which were beheld in bolder relief as the shades of night came on apace My uncle however in order to calm their fears persisted in saying that this was only the light given by some villages which had been abandoned by the rustics in their alarm to the flames after which he retired to rest and soon fell fast asleep for his respiration which with him was heavy and loud in consequence of his corpulence was distinctly heard by the servants who were keeping watch at the door of the apartment The courtyard which led to his apartment had now become filled with cinders and pumice stones to such a degree that if he had remained any longer in the room it would have been quite impossible for him to leave it On being awoke he immediately arose and rejoined Pomponianus and the others who had in the meanwhile been sitting up They then consulted together whether it would be better to remain in the house or take their chance in the open air as the building was now rocking to and fro from the violent and repeated shocks while the walls as though rooted up from their very foundations seemed to be at one moment carried in this direction at another in that Having adopted the latter alternative they were now alarmed at the showers of light calcined pumice stones that were falling thick about them a risk however to which as a choice of evils they had to submit In taking this step I must remark that while with my uncle it was reason triumphing over reason with the rest it was only one fear getting the better of the other Taking the precaution of placing pillows on their heads they tied them on with towels by way of protection against the falling stones and ashes It was now day in other places though there it was still night more dark and more profound than any ordinary night torches however and various lights in some measure served to dispel the gloom It was then determined to make for the shore and to ascertain whether the sea would now admit of their embarking it was found however to be still too stormy and too boisterous to allow of their making the attempt Upon this my uncle lay down on a sail which had been spread for him and more than once asked for some cold water which he drank very soon however they were alarmed by the flames and the sulphurous smell which announced their approach upon which the others at once took to flight while my uncle arose leaning upon two of the servants for support

Upon making this effort he instantly fell to the ground the dense vapour having I imagine stopped the respiration and suffocated him for his chest was naturally weak and contracted and often troubled with violent palpitations When day was at last restored the third after the closing one of his existence his body was found untouched and without a wound there was no change to be perceived in the clothes and its appearance was rather that of a person asleep than of a corpse In the meantime my mother and myself were at Misenum that however has nothing to do with the story as it was only your wish to know the details connected with his death I shall therefore draw to a conclusion The only thing that I shall add is the assurance that I have truthfully related all these facts of which I was either an eye witness myself or heard them at the time of their occurrence a period when they were most likely to be correctly related You of course will select such points as you may think the most important For it is one thing to write a letter another to write history one thing to write for a friend another to write for the public Farewell Of the mode of life pursued by Pliny and of the rest of his works an equally interesting account has been preserved by his nephew in an Epistle addressed to Macer We cannot more appropriately conclude than by presenting this Epistle to the reader I am highly gratified to find that you read the works of my uncle with such a degree of attention as to feel a desire to possess them all and that with this view you inquire What are their names I will perform the duties of an index then and not content with that will state in what order they were written for even that is a kind of information which is by no means undesirable to those who are devoted to literary pursuits His first composition was a treatise on the use of the Javelin by Cavalry in one Book This he composed with equal diligence and ingenuity while he was in command of a troop of horse His second work was the Life of Q Pomponius Secundus in two Books a person by whom he had been particularly beloved These books he composed as a tribute which was justly due to the memory of his deceased friend His next work was twenty Books on the Wars in Germany in which he has compiled an account of all the wars in which we have been engaged with the people of that country This he had begun while serving in Germany having been recommended to do so in a dream
