Dining Spaces:

The Moral Geographies of Children, Young People and Food J. Pike, P. Kelly, 2014-11-25 This book takes Jamie Oliver's campaign for better school meals as a starting point for thinking about morally charged concerns relating to young people's nutrition health and well-being parenting and public health crises such as obesity The authors show how these debates are always about the moral project of the self

Culture of The Sacred Space Olimpia Niglio, 2024-12-03 This book highlights the relationship between sacred architecture and tourism specifically focusing on the role of interior design strategies It explores how the interior design of sacred spaces can influence the tourist experience and shape their perception of these places The book touches upon elements such as spatial organization symbolism material selection lighting and acoustics all of which contribute to creating a meaningful and immersive environment for visitors It explores the architectural design ideological motivations and the historical context surrounding the palace's construction The book also addresses the eventual abandonment of the project and its transformation of their uses reflecting on the complexities of realizing utopian visions in architecture It examines how the sanctuary's architectural design and spatial arrangement interact with the surrounding landscape including elements such as topography vegetation and water features Moreover it focuses on the interior design and explores the symbolism spatial organization artistic elements and spiritual experiences associated with the dome interiors of these structures The book showcases the historical context cultural influences and the evolution of design principles that shaped these remarkable spaces Also this book investigates the transition of visionary architectural drawings from the realm of professional architects Furthermore it explores how architectural drawings serve as a medium for expressing imaginative and utopian ideas and how this transition occurs in the context of architectural education

The Chesapeake House Cary Carson, Carl R. Lounsbury, 2013-03-25 For more than thirty years the architectural research department at Colonial Williamsburg has engaged in comprehensive study of early buildings landscapes and social history in the Chesapeake region Its painstaking work has transformed our understanding of building practices in the colonial and early national periods and thereby greatly enriched the experience of visiting historic sites In this beautifully illustrated volume a team of historians curators and conservators draw on their far-reaching knowledge of historic structures in Virginia and Maryland to illuminate the formation development and spread of one of the hallmark building traditions in American architecture The essays describe how building design hardware wall coverings furniture and even paint colors telegraphed social signals about the status of builders and owners and choreographed social interactions among everyone who lived or worked in gentry houses modest farmsteads and slave quarters The analyses of materials finishes and carpentry work will fascinate old house buffs preservationists and historians alike The lavish color photography is a delight to behold and the detailed catalogues of architectural elements provide a reliable guide to the form style and chronology of the region's distinctive historic architecture
