

Disaster Famines

John R.K. Robson

Disaster Famines:

Mass Starvation Alex de Waal, 2017-12-08 The world almost conquered famine Until the 1980s this scourge killed ten million people every decade but by early 2000s mass starvation had all but disappeared Today famines are resurgent driven by war blockade hostility to humanitarian principles and a volatile global economy In *Mass Starvation* world renowned expert on humanitarian crisis and response Alex de Waal provides an authoritative history of modern famines their causes dimensions and why they ended He analyses starvation as a crime and breaks new ground in examining forced starvation as an instrument of genocide and war Refuting the enduring but erroneous view that attributes famine to overpopulation and natural disaster he shows how political decision or political failing is an essential element in every famine while the spread of democracy and human rights and the ending of wars were major factors in the near ending of this devastating phenomenon Hard hitting and deeply informed *Mass Starvation* explains why man made famine and the political decisions that could end it for good must once again become a top priority for the international community [Disaster!](#) Dennis B. Fradin, 1986-04-01 Discusses the worst of disasters famine focusing on that problem in several African countries in the 1980s and mentioning some major famines in history such as China's in the 1870s Ireland's of mid nineteenth century and Russia's of the 1920s

Managing Famine, Flood and Earthquake in China Lauri Paltemaa, 2015-10-05 China suffers frequently from many types of natural disasters which have affected the lives of many millions of Chinese The steps which the Chinese state has taken to prevent disasters mitigate their consequences and reconstruct in the aftermath of disasters are therefore key issues This book examines the single metropolis of Tianjin in northern China a city which has suffered particularly badly from natural disasters the great famine of 1958-61 the great flood of 1963 and the great earthquake of 1976 It discusses how the city managed these disasters what policies and measures were taken to prevent and mitigate disasters and to promote reconstruction afterwards It also explores who suffered from and who benefited from the disasters Overall the book shows how disaster management was erratic sometimes managed highly efficiently and in other cases disappointingly delayed and inept It concludes that although the Maoist state possessed formidable resources disaster management was always constrained by other political and economic considerations and was never an automatic priority [The History of Famine Relief in China](#)

Yunte Deng, 2020-07-23 The first English translation of Deng Yunte's study of famine relief throughout the history of China

Famine John R.K. Robson, 2023-03-31 In *Famine 1981* a collection of essays by experts from the developing world and advanced agricultural societies the authors share their ecological perspectives and provide an insight into the multiple causes of famine They examine the fact that the main cause of famine is more likely to be as a result of human actions rather than the vagaries of climate and look at whether planned intervention by governments and relief agencies may compound the problems already existing **The Indian Famine of 1877, Being a Statement of the Measures Proposed by the Government of India for the Prevention and Relief of Famines in the Future** Indian

Famine,1878 **The Public Health Consequences of Disasters** Eric K. Noji,1996-11-14 Natural and man made disasters earthquakes floods volcanic eruptions industrial crises and many others have claimed more than 3 million lives during the past 20 years adversely affected the lives of at least 800 million people and caused more than 50 billion dollars in property damages A major disaster occurs almost daily in some part of the world Increasing population densities in flood plains along vulnerable coastal areas and near dangerous faults in the earth s crust as well as the rapid industrialization of developing economies are factors likely to make the threat posed by natural disasters much bigger in the future Illustrated with examples from recent research in the field this book summarizes the most pertinent and useful information about the public health impact of natural and man made disasters It is divided into four sections dealing with general concerns geophysical events weather related problems and human generated disasters The author starts with a comprehensive discussion of the concepts and role of surveillance and epidemiology highlighting general environmental health concerns such as sanitation water shelter and sewage The other chapters based on a variety of experiences and literature drawn from both developing and industrialized countries cover discrete types of natural and technological hazards addressing their history origin nature observation and control Throughout the book the focus is on the level of epidemiologic knowledge on each aspect of natural and man made disasters Exposure disease and health event surveillance are stressed because of the importance of objective data to disaster epidemiology In addition Noji pays particular attention to prevention and control measures and provides practical recommendations in areas in which the public health practitioner needs more useful information He advocates stronger epidemiologic awareness as the basis for better understanding and control of disasters A comprehensive theoretical and practical treatment of the subject *The Public Health Consequences of Disasters* is an invaluable tool for epidemiologists disaster relief specialists and physicians who treat disaster victims *Current Review of Economic and Social Problems in the United Nations* ,1952 [A Current Review \[of\] Economic and Social Problems in the United Nations](#) United States Department of State,1952 **A Current Review, Economic and Social Problems in the United Nations** ,1951

[Famine, a Man-made Disaster?](#) Independent Commission on International Humanitarian Issues,1985

[Humanitarianism](#) Tim Allen,Anna Macdonald,Henry Radice,2018-06-27 The field of humanitarianism is characterised by profound uncertainty by a constant need to respond to the unpredictable and by concepts and practices that often defy simple or straightforward explanation Humanitarians often find themselves not just engaged in the pursuit of effective action but also in a quest for meaning That is the starting point for this book Humanitarian action has in recent years confronted geopolitical challenges that have upended much of its conventional modus operandi and presented threats to its foundational assumptions and legal frameworks The critical interrogation of the purpose practice and future of humanitarian action has yielded a rich new field of enquiry humanitarian studies and many thoughtful books articles and reports So the question arose as to the most useful way to provide a critical overview that might serve to bring some definitional clarity as well as

analytical rigor to the waves of critique and shifting sands of humanitarian action Humanitarianism A Dictionary of Concepts provides an authoritative analysis that attempts to rethink rather than merely problematize or define the issues at stake in contemporary humanitarian debates It is an important moment to do so Just about every tenet of humanitarianism is currently open to question as never before **The Famines of the World: Past and Present ...** Cornelius Walford,1879

The Ethiopian Famines, Entitlements and Governance Derseh Endale,1993 **The famines of the world: past and present. 2 papers read before the Statistical soc. of London, and repr. from its Journal** Cornelius Walford,1879

Anthropology of Disaster Management Sachindra Narayan,2000 Anthropology the Science of Man in its totality has to deal with disaster management at the close of the millennium and have to equip for 21st century with management skills It has scholarly essays on the subject **The Great Famine. Cataclysm for the Transformation of Ireland** Sonja Wendel,2013-07-04 Seminar paper from the year 2010 in the subject History of Europe Modern Times Absolutism Industrialization grade 1 0 National University of Ireland Maynooth History Dept course Irish History language English abstract Historical research moved away from dramatic Irish politics towards a rather social and cultural focus Studies in the field of history to my opinion are studies about humanity and emotions and not just about elected data and research It is evident that the Great Famine and its data are an important issue within Irish history Although this experience was a touchstone for Irish people as Murphy also stated Irish economic history in the nineteenth century was about food and land Clearly the most important event of the century as far as people s lives were concerned was the cataclysm of the Famine in the 1840s Murphy 2003 9 it was just one and not the only reason for the changes of and within Ireland This essay aims to outline and describe in what ways and to which extent the Famine initiated the Irish transformation Outlook ,1913

The World's Health ,1929 *Report on Famine Operations in the Bhavnager State, in 1899-1900* Bhavnagar (State : India),1900
