Miss Dividends Archibald Clavering Gunter, 2021-04-26 In *Miss Dividends* Archibald Clavering Gunter crafts a compelling tale set against the backdrop of the affluent social circles of late 19th century America. The novel, characterized by its witty dialogue and sharp social commentary, explores themes of wealth, ambition, and the quest for identity within a rapidly changing society. Through the lens of its vibrant characters, Gunter masterfully critiques the vacuous nature of high society, weaving a narrative that is both entertaining and thought-provoking, embodying the era's preoccupation with fortune and class dynamics. Archibald Clavering Gunter, an accomplished novelist and playwright, drew from his firsthand experiences as a contemporary observer of the societal trends of his time. Gunter's background, marked by both success and adversity in the theatrical world, lent him a profound understanding of human nature and societal ambition. This informed his writing, allowing him to vividly portray the trials and tribulations of characters navigating the moral ambiguities of wealth and status, cementing his place as a keen commentator on the American social landscape. *Miss Dividends* is an essential read for those interested in historical fiction and social critique. With its engaging narrative and richly drawn characters, the novel provides readers with a nuanced understanding of the interplay between personal ambition and societal expectations. Gunter's astute observations make this work a timeless exploration of the human condition, relevant to anyone who contemplates the meaning of success.

Michigan Christian Advocate, 1926 **The Number** Alex Berenson, 2003-03-04 In this commanding big picture analysis of what went wrong in corporate America, Alex Berenson, a top financial investigative reporter for *The New York Times*, examines the common thread connecting Enron, Worldcom, Halliburton, Computer Associates, Tyco, and other recent corporate scandals: the cult of the number. Every three months, 14,000 publicly traded companies report sales and profits to their shareholders. Nothing is more important in these quarterly announcements than earnings per share, the lodestar that investors and these days that's most of us use to judge the health of corporate America. Earnings per share is the number for which all other numbers are sacrificed. It is the distilled truth of a company's health. Too bad it's often a lie. *The Number* provides a comprehensive overview of how Wall Street and corporate America lost their way during the great bull market that began in 1982. With fresh insight, wit, and a broad historical perspective, Berenson puts the accounting fraud of the past three years in context, describing how decades of lax standards and shady practices contributed to our current economic troubles. As the bull market turned into a bubble, Wall Street became utterly focused on the number: companies' quarterly earnings. Along the way, the market lost track of what companies are really supposed to do: build profitable businesses with sustainable futures. With their pay soaring and increasingly tied to their companies' shares, executives were more than happy to give Wall Street the predictable earnings reports it wanted, whatever the reality of their businesses. Accountants, analysts, money managers, and individual investors played along while the Securities and Exchange Commission found itself

overwhelmed and underequipped to cope with the earnings game The Number offers a unified vision of how today's accounting scandals reflect a broader system failure As long as investors remain too focused on the number companies will find ways to manipulate it Alex Berenson gives anyone who has ever invested in or worked for a public company the tools necessary to see beyond the cult of the number understand accounting and its limits and recognize patterns that can lead to fraud After two decades of stock market hype The Number offers a welcome dose of truth about the way Wall Street and corporate America really work Conscience and Dividends Thomas C.
