Mass-Observation and Visual Culture Lucy D. Curzon, 2017-07-05 *Mass Observation and Visual Culture* Depicting Everyday Lives in Britain critically analyses the role that visual culture played in the early development of Mass Observation the innovative British anthropological research group founded in 1937 The group's production and use of painting collage photography and other media illustrates not only the broad scope of Mass Observation's efforts to document everyday life but also more specifically the centrality of visual elements to its efforts at understanding national identity in the 1930s Although much interest has previously focused on Mass Observation's use of written reports and opinion surveys as well as diaries that were kept by hundreds of volunteer observers this book is the first full length study of the group's engagement with visual culture Exploring the paintings of Graham Bell and William Coldstream the photographs of Humphrey Spender the paintings collages and photographs of Julian Trevelyan and Humphrey Spender's photographs and widely recognized Mass Observation film *Spare Time* among other sources *Mass Observation and Visual Culture* Depicting Everyday Lives in Britain positions these works as key sources of information with regard to illuminating the complex character of British identity during the Depression era **Macmillan's Magazine**, 1889 **Classified Catalogue of the Carnegie Library of Pittsburgh, 1895- 1902: Fine Arts. Literature. Fiction. Purcell, Lucy D. Curzon, Fiona Courage, 2025-12-11 An exploration of how the coronation of Charles III was experienced as a social and cultural event using the views and writings collected by Mass Observation *The Atlantic Monthly*, 1903 *The Art Journal*, 1883

Interchangeable Parts Victor Holtcamp, 2019-07-09 While Hollywood has long been called The Dream Factory and theatrical entertainment more broadly has been called The Industry the significance of these names has rarely been explored There are in fact striking overlaps between industrial rhetoric and practice and the development of theatrical and cinematic techniques for rehearsal and performance *Interchangeable Parts* examines the history of acting pedagogy and performance practice in the United States and their debts to industrial organization and philosophy Ranging from the late nineteenth

century through the end of the twentieth the book recontextualizes the history of theatrical technique in light of the embrace of industrialization in US culture and society Victor Holtcamp explores the invocations of scientific and industrial rhetoric and philosophy in the founding of the first schools of acting and echoes of that rhetoric in playwriting production and the cinema as Hollywood in particular embraced this industrially infected model of acting In their divergent approaches to performance the major US acting teachers Lee Strasberg Stella Adler and Sanford Meisner demonstrated strong rhetorical affinities for the language of industry illustrating the pervasive presence of these industrial roots The book narrates the story of how actors learned to learn to act and what that process for both stage and screen owed to the interchangeable parts and mass production revolutions
