Art Of Enlightenment:

The Zen Art Book Stephen Addiss, John Daido Looi, 2009 When a Zen master puts brush to paper the resulting image is an expression of the quality of his or her mind It is thus a teaching intended to compassionately stop us in our tracks and to compel us to consider ultimate truth Here forty masterpieces of painting and calligraphy by renowned masters such as Hakuin Ekaku 1685 1768 and Gibon Sengai 1750 1837 are reproduced along with commentary that illuminates both the art and its teaching The authors essays provide an excellent introduction to both the aesthetic and didactic aspects of this art that can be profound perplexing serious humorous and breathtakingly beautiful often all within the same simple piece

Esthetics of the Moment Thomas M. Kavanagh, 2015-11-16 The literature and art of the French Enlightenment is everywhere marked by an intense awareness of the moment The parallel projects of living in representing and learning from the moment run through the Enlightenment s endeavors as tokens of an ambition and a heritage imposing its only and ultimately impossible cohesion In this illuminating study Thomas M Kavanagh argues that Enlightenment culture and its tensions contradictions and achievements flow from a subversive attention to the present as present freed from the weight of past and future Examining a wide sweep of literary and artistic culture Kavanagh argues against the traditional view of the Age of Reason as one of coherent recognizable ideology expressed in a structured narrative form In literature he analyzes the moment at work in the inebriating lightness of Marivaux s repartee the new found freedom of Lahontan s and Rousseau s ideals of a consciousness limited to the present Diderot s championing of Epicurean epistemology Graffigny s portrayal of abrupt cultural displacement and Casanova s penchant for chance s redefining moment The moment in art theory and practice is explored in such forms as de Piles s defense of color Du Bos s foregrounding of perception Watteau s indulgence in a corporeal present Chardin s dismantling of mimesis and Boucher s and Fragonard s thematics of desire

The Institutions of Art Peter B_rger,Christa B_rger,1992-01-01 Art has been an umbrella term for poetry music dance sculpture painting and architecture since the end of the eighteenth century when the bourgeoisie were establishing their hegemony over culture and politics in Germany labor was becoming more clearly divided and religion was losing its unifying force Art became a broad and separate entity as the expectations and experience of it changed The Institutions of Art concentrates on German and French literature in illustrating the formation of aesthetic autonomy and the divergence between high and popular culture Peter B_rger builds on his earlier Theory of the Avant Garde 1984 pushing further into key theoretical questions about art and society Christa B_rger extends the critique to the history of the novel focusing on Goethe and Kleist Looking backward to feudalism and forward to our century the authors show how the function of art has changed along with the criteria for its production and evaluation

The Founding of Aesthetics in the German Enlightenment Stefanie Buchenau,2013-02-28 When in 1735 Alexander Gottlieb Baumgarten added a new discipline to the philosophical system he not only founded modern aesthetics but also contributed to shaping the modern concept of art or fine art In The Founding of Aesthetics in the German Enlightenment Stefanie Buchenau offers a rich analysis and reconstruction of the origins of this new discipline in its wider context of German Enlightenment philosophy Present day scholars commonly regard Baumgarten s views as an imperfect prefiguration of Kantian and post Kantian aesthetics but Buchenau argues that Baumgarten defended a consistent and original project which must be viewed in the context of the modern debate on the art of invention Her book offers new perspectives on Kantian aesthetics and beauty in art and science
