Art Of Darkness A Poetics Of Gothic:

Art of Darkness Anne Williams, 1995-04-15 Art of Darkness is an ambitious attempt to describe the principles governing Gothic literature Ranging across five centuries of fiction drama and verse including tales as diverse as Horace Walpole's The Castle of Otranto Shelley's Frankenstein Coleridge's The Rime of the Ancient Mariner and Freud's The Mysteries of Enlightenment Anne Williams proposes three new premises that Gothic is poetic not novelistic in nature that there are two parallel Gothic traditions Male and Female and that the Gothic and the Romantic represent a single literary tradition Building on the psychoanalytic and feminist theory of Julia Kristeva Williams argues that Gothic conventions such as the haunted castle and the family curse signify the fall of the patriarchal family Gothic is therefore poetic in Kristeva's sense because it reveals those others most often identified with the female Williams identifies distinct Male and Female Gothic traditions In the Male plot the protagonist faces a cruel violent and supernatural world without hope of salvation The Female plot by contrast asserts the power of the mind to comprehend a world which though mysterious is ultimately sensible By showing how Coleridge and Keats used both Male and Female Gothic Williams challenges accepted notions about gender and authorship among the Romantics Lucidly and gracefully written Art of Darkness alters our understanding of the Gothic tradition of Romanticism and of the relations between gender and genre in literary history

At Stake Edward Ingebretsen, 2001 Anyone who watches the evening news is all too familiar with how the word monster is used to describe acts of violence In this book

Edward Ingebretsen sets out to discover what is really at stake when we turn someone into a monster The monster he finds serves a moralizing function in our culture making exaggerated examples of particular evildoers in order to reaffirm prevailing standards of behavior and personal conduct

Affected Sensibilities Stephen Ahern,2007 A pioneering assessment of the history of the English novel Stephen Ahern's new study *Affected Sensibilities* reconsiders the role played by the early British novel in the shift from a culture of libertinism during the Restoration and its aftermath to a culture of sentimentality from mid century through the beginnings of Romanticism In a perceptive series of essays on prose narratives the author develops the provocative thesis that the amatory sentimental and Gothic fictional forms that dominate the marketplace in the early years of the novel are deeply connected by a concern with sensibility a capacity for living intensely that is largely determined by class and gender

Jane Austen's Northanger Abbey Jane Austen,2005 This edition places Jane Austen and *Northanger Abbey* in the major conversations of Romanticism not just the gothic novel and female education It places the novel in two contexts 1798 when it was written and 1818 when it was published illustrating its relevance to both periods and the major writers especially the poets

Vision and Vacancy James Walton,2007 Underlying the melodrama and moralism the orthodoxy and mysticism of Uncle Silas W J Mc Cormack has discovered a sinister vacancy from which authority has withdrawn The remark might be applied to the whole body of Sheridan Le Fanu's fiction *Vision and Vacancy* follows the course of his attraction to the void and his resistance to it from the beginning to the end of his career By placing his work within the appropriate contexts of early apparition narrative and modern ghost story English and Continental novel Walton's study provides not only the most thorough account of the richness of his techniques but shows how cosmopolitan influences were an inescapable condition of his Anglo Irishness

Rethinking the Uncanny in Hoffman and Tieck Marc Falkenberg,2005 This

stimulating new book challenges Freud's definition of the uncanny prevalent in the study of Gothic and Romantic fiction by reviving the importance of uncertainty in the uncanny. Literary criticism views the uncanny as an expression of the return of the repressed. Falkenberg's expanded definition includes but is not limited to the psychoanalytic and instead redefines the uncanny as a cognitive and aesthetic phenomenon. Beyond offering a survey of what David Punter has called *The Theory of the Uncanny*, this study places the uncanny in the context of the poetological and philosophical background of the Romantic period. In close readings of two stories that have stood at the center of the debate about the uncanny: E. T. A. Hoffmann's *Sandman* and Ludwig Tieck's *Blond Eckbert*, the author shows how these texts are constructed as uncanny phenomena in themselves. The study traces fairytale elements, framing techniques, and interdependencies between the fictional productions of the protagonists and their dark fates to expose how these texts confront the reader with paradoxical decoding instructions. This expanded and revised uncanny not only yields new readings of two classic German short stories, it also leads to a better understanding of the cultural soil that nourished the Romantic Movement.

Medieval Women Jocelyn Wogan-Browne, 2000
In this themed collection of 24 articles by literary, historical, and archaeological scholars, the study of medieval women is confidently and freshly mainstream. Profiting from the development of newly flexible models of gender, literacy, the political, the social, and the domestic, the volume is non-separatist, exploratory, both of new source materials and new readings of established sources, and able to consider the broadest implications for the study of medieval culture without simply re-absorbing medieval women into invisibility. Grouped under the headings of matters of reading, of conduct, and place, the essays move from legal cases to actual buildings and conceptions of the household, to conduct books and chronicles, to romances and saints' lives, to the medieval unconscious, and back again, exemplifying the mature interdisciplinarity of current work on medieval women.

Imperialism, Reform and the Making of Englishness in Jane Eyre Sue

Thomas, 2008-04-30
In a famous passage from Charlotte Brontë's novel *Jane Eyre*, Jane Eyre identifies herself with millions in ferment in silent revolt against their lot. Elsewhere, she compares herself to a missionary preaching liberty to the enslaved, helping them secure their freedom. Her imagination is shaped by historical events, and yet Brontë is usually thought to be careless about dates and historical markers in *Jane Eyre*. In this groundbreaking study, Sue Thomas convincingly dates the action and setting of the novel and analyses the worldly consciousness of Brontë's characters and of Brontë herself. She addresses the articulation of questions of imperial history and relations, reform, racialization, and the making of Englishness in the novel. Her examination of an 1848 stage adaptation of *Jane Eyre* for a predominantly working-class audience and of an 1859 Caribbean reworking of the novel illuminate the limits of Brontë's social imaginary.
