## **Caricom System:**

The CARICOM System Duke E. Pollard, 2003 Records the institutional development of one of the most enduring economic integration systems in the international community by having the documents speak for themselves *CARICOM* Kenneth O. Hall, Myrtle Chuck-A-Sang, 2010 In *CARICOM Policy Options for International Engagement* the contributors bring a wealth of experience and knowledge in putting forward the critical questions policymakers must consider and answer in charting the course and laying the framework for this coordinated structure and foreign policy plan Divided into four sections the volume firstly presents the perspectives that corroborate the need for collective action The second section focuses on the emerging powers and the need for South to South Cooperation while the third section discusses the external trade negotiations and the impact of the loss of EU preferences and subsidies the EPA and trade negotiations in the WTO and the new CARICOM US trade relations In the fourth and final section the volume is rounded out by an examination of the kind of cooperation that is needed first at the regional level to sustain economic development The need for harmonisation of fisheries policies and the prevention of maritime degradation the preservation of the environment and the need to reverse the effects of climate change the need for a cohesive regional security policy and a viable air transportation industry as well as the legal framework to implement multilateral treaties are all examined as imperative to CARICOM's development of a coordinated regional foreign policy plan **Ideas, Policies and Economic Development in the Americas** Esteban

Pérez-Caldentey, Matias Vernengo, 2007-03-29 The interplay of ideas and policies is central to understanding the historical evolution of economies Ideas shape economic institutions and real economic constraints are the source of new economic ideas The history of economic ideas both those that are fairly recent and those that are considerably older may provide a fertile ground for new approaches to Latin American and Caribbean economic development However the history of economic ideas and their intricate relation to economic policies remains a relatively unexplored field in Latin American and Caribbean studies This book is a valuable new contribution to this emerging literature **Ideological Foundations and**

**Development Expectations of Caribbean Regionalism** Myrtle Chuck-A-Sang, 2023-03-16 Foci of publications This publication is intended to be an invaluable tool to the avid researcher on Caribbean regionalism and related subjects The range of papers presented probe areas such as the institutional development of one of the most enduring economic integration systems in the international community the workings of its major institutions and indeed its very survival The importance of record keeping to the survival of any institution or major grouping is the message that permeates this volume given its role in enabling an understanding of our past and in the holistic development and preservation of the region's cultural identity **Caribbean Integration Law** David S. Berry, 2014-02-27 Caribbean Integration Law offers a comprehensive legal analysis of the current treaties and rules governing the two main regional organisations in the Caribbean the Caribbean Community CARICOM and the Organisation of Eastern Caribbean States OECS Both organisations

are operating under new treaties the Revised Treaty of Chaguaramas and the Revised Treaty of Basseterre respectively which created the CARICOM Single Market and Economy and the OECS Economic Union The single market and economic union were built upon principles of free movement of goods labour and capital and a common external tariff This book reviews the foundations of Caribbean regional integration the institutional frameworks of the two regional organisations and fleshes out the scope and context of the legal systems created by the treaties It also reviews the dispute settlement mechanisms under both treaties including the increasingly active role of the Caribbean Court of Justice which allows persons to enforce their treaty rights directly before the Court The book offers selective comparisons to the current rules governing the European Union and integrates crucial insights from the field of public international law including the law of treaties and international institutional law

CARICOM Bulletin Caribbean Community. Secretariat,1985      **Region-building** Ludger Kühnhardt,2010-07-01 After two centuries of nation building the world has entered an era of region building in search of political stability cultural cohesion and socio economic development Nations involved in the regional structures and integration schemes that are emerging in most regions of the world are deepening their ambitions with Europe s integration experience often used as an experimental template or theoretical model Volume I provides a political analytical framework for recognizing the central role of the European Union not only as a conceptual model but also a normative engine in the global proliferation of regional integration It also gives a comprehensive treatment of the focus motives and objectives of non European integration efforts Volume II offers a unique collection of documents that give the best available overview of the legal and political evolution of region building based on official documents and stated objectives of the relevant regional groupings across all continents Together these volumes are important contributions for understanding the evolution of global affairs in an age when power shifts provide new challenges and opportunities for transatlantic partners and the world community

*The Caricom System* Duke Pollard,2004-01-01 This book provides the reader with an overview of the CARICOM economic integration system of regional co operation and the primary agreements encompassing the basis of regional cooperation through identification of legal regimes expressed to constitute the CARICOM System Most of these regimes post date the ill fated experiment in West Indian Federalism and collectively describe the institutional development of the political entities comprising the Commonwealth Caribbean in the period after 1962 In this context it focuses on the earliest attempts at regional economic integration and the intensification of functional cooperation both of which appeared at a critical time to offer better prospects for regional development than political integration Central to these developments were the initiatives at regional economic integration commencing with the Dickenson Bay Agreement in 1965 followed by CARIFTA in 1968 and culminating in the Treaty of Chaguaramas in 1973 establishing the Caribbean Community and Common Market
