Beginnings in Ritual Studies Ronald L. Grimes, 2010 *Beginnings in Ritual Studies* lays the groundwork for the interdisciplinary study of ritual by broadening the conception of it and articulating its connections to a wide range of cultural activities Accessible to scholars and students *Beginnings* addresses such fundamental issues as definitions types and theories of ritual The volume integrates field research and theory in considering ritual's relation to religious civil medical and theatrical dimensions of culture The first and second editions garnered widespread praise from the scholarly community and became a standard work in the burgeoning field of ritual studies In this third edition Grimes adds a new preface and revises the descriptive and theoretical essays that form the core of the volume

Beginnings in Ritual Studies Ronald L. Grimes, 1995 An updated primer for the burgeoning field of ritual studies

Ritual and Christian Beginnings Risto Uro, 2016 The rise of early Christianity has been examined from a myriad of perspectives but until recently ritual has been a neglected topic *Ritual and Christian Beginnings: A Socio-Cognitive Analysis* argues that ritual theory is indispensable for the study of Christian beginnings It also makes a strong case for the application of theories and insights from the Cognitive Science of Religion a field that has established itself as a vigorous movement in Religious Studies over the past two decades Risto Uro develops a socio-cognitive approach to the study of early Christian rituals seeking to integrate a social level analysis with findings from the cognitive and evolutionary sciences *Ritual and Christian Beginnings* provides an overview of how ritual has been approached in previous scholarship including reasons for its neglect and introduces the reader to the emerging fields of Ritual Studies and the Cognitive Science of Religion In particular it explores the ways in which cognitive theories of ritual can shed new light on issues discussed by early Christian scholars and opens up new questions and avenues for further research The socio-cognitive approach to ritual is applied to a number of test cases including John the Baptist the ritual healing practiced by Jesus and the early Christians the social life of Pauline Christianity and the development of early Christian baptismal practices The analysis creates building blocks for a new account of Christian beginnings highlighting the role of ritual innovation cooperative signalling and the importance of bodily actions for the generation and transmission of religious knowledge

The Craft of Ritual Studies Ronald L. Grimes, 2014 *Readership* Students and scholars of ritual studies religious studies anthropology

A Sense of Belonging Hilton Scott, 2022-03-08 This book takes an interdisciplinary approach to a societal challenge that both affects and is affected by the church in multi-racial multi-cultural and otherwise pluralistic communities In certain contexts around the world there are pertinent examples of the struggles that come with learning to live together in the midst of diversity and plurality such as the post-apartheid Republic of South Africa However these more often than not racial and cultural struggles could be eased by developing worship services that are more relevant and inclusive This in turn should instill a sense of belief and a way of inclusive thinking culminating in more inclusive living The approach developed in this book stems from the aphorism *lex orandi lex credendi lex con-vivendi* or as we pray so we

believe so we live together Readings in Ritual Studies Ronald L. Grimes,1996 This is the most comprehensive collection of articles on ritual ever assembled The book includes selections by internationally known scholars such as Victor Turner and Clifford Geertz as well as innovative pieces that illustrate the extraordinary interdisciplinary range of contemporary ritual studies Grimes has drawn readings from the entire range of ritual encompassing its secular political and dramatic

expressions as well as its religious ones **Interpreting ancient egyptian narratives** ,2015-04-08 In Interpreting Ancient Egyptian Narratives Martin Pehal applies structural analysis to four New Kingdom narrative compositions The study explains the strong configurational character of ancient Egyptian mythological thought which has the ability to connect various ontological levels of human experience with the surrounding world into complex synchronic structures These symbolical systems are shown to be mediating between the various cultural paradoxes which were inherent to ancient Egyptian society

Farewell and new beginning Kathrin Rothenberg-Elder,2023-04-24 Life is full of transitions These transitions have to be addressed shaped processed and integrated into our lives in some way Regardless of the belief in a God traditional structures always come into view here especially religiously traditional rites of passage such as baptism and circumcision communion and bar mitzvah marriage as well as convalescence death and funeral rites What is the psychological function of religiously traditional rites of passage today This question will be investigated with the help of interactive interviews with functionaries and members of the religious communities of all three monotheistic currents in Northern Europe flanked by two interviews with atheists **The Palgrave Handbook of Anthropological Ritual Studies** Pamela J. Stewart,Andrew J.

Strathern,2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future **The Sacred**

Rituals in Abundance Gerard Lukken,2005 Rituals are closely linked with culture This book is a consideration of Christian ritual in our culture It was originally written particularly with an eye to the ritual developments in The Netherlands which can be considered as representative for our Western European culture It has been revised and expanded for the English edition As in other European countries in the 1960s Dutch society witnessed a serious crisis in ritual The situation was paradoxical While under the influence of the Second Vatican Council and the Liturgical Movement in the Catholic churches there was a great creativity with regard to ritual ritual was gradually disappearing from the society at large and participation in Christian ritual was rapidly draining away A religious void arose However since then the situation has changed fundamentally Rituals were rediscovered in the 1990s indeed to such an extent that one can now speak of rituals in abundance In this book the author sketches out the directions and sets out signposts for where ritual is going in contemporary culture He traces the peculiar characteristics of ritual indicates what shifts have taken place and tries to further define the identity of various rituals In doing this he concentrates on the question of the place of Christian ritual in our culture How is Christian ritual connected with the many rites in our culture What new shape is it taking on in our culture In the midst of the other rites what is the peculiar identity of Christian ritual In this book the accent is on the anthropological approach to Christian ritual it works from the bottom up The book seeks answers to the questions being asked in the discipline of ritual studies which particularly

since the second half of the 1980s has arisen as an important realm or stage on which different disciplines studying ritual come together

The Canadian Jewish Studies Reader Richard Menkis, Norman Ravvin, 2004 Canadian Jewish Studies is a young field often lost in the shadow of its American older sister In *The Canadian Jewish Studies Reader* editors Richard Menkis and Norman Ravvin demonstrate that what's going on in Canada critically and artistically is every bit as interesting as the work being done in the United States Taking a cultural studies approach the editors view the way that Canadian Jewish identity is examined in literature visual arts historical writing feminist research and urban geography among other fields Included too is a preface that introduces the field and argues for the particular interest of Canadian Jewish Studies to readers and students in the international community The articles are supplemented by a range of exciting visuals *The Canadian Jewish Studies Reader* also features new work by both editors in their exploration of Canadian literature and history

Ritual and Symbol in Peacebuilding Lisa Schirch, 2005

Annotation Schirch argues that examples of peacebuilding often center on the serious rational negotiations and formal problem solving efforts in conflict situations but that what truly bonds adversaries and helps achieve peace are the symbolic non verbal ritual Yet these are often overlooked as deliberate components of peace negotiations
