the role of the prosecutor and the non assistance of some states impede the development and operation of international criminal justice The second part has attempted to analyze sexual crimes and especially the crime of male rape The jurisprudence of international criminal tribunals and the ICC have tried to qualify rape either as a crime of genocide in the form of serious and physical injuries even if not necessarily permanent let b Art 6 of the Rome Statute or as a crime against humanity where there are elements of context and above all material elements that emerge from the definitions given by the ad hoc tribunals and the elements of crimes or even as a war crime in case it is implemented to that of sexual violence according to a gender specific relationship to *speciem* Judges through the jurisprudence have included in this context any conduct of a sexual type of aggression to human dignity that does not consist in an act of penetration and that does not involve physical contact The contrasts are always open Due to the lack of dealing with a particular crime and difficult to prove it or testify before an international court The indication on the level of gravity of the crime is necessary for the relevance of sexual violence and rape as crimes against humanity that we will see in the coming years

The Political Role of Law Courts in Modern Democracies Jerold Waltman, Kenneth M. Holland, 1988-02-23 No society can function without judicial institutions At a minimum conflict must be regulated and the criminal law enforced Ironically though modern political science has tended to ignore the role of courts in advanced industrial societies so much so that even basic information has often been unavailable This book covers three important bases First it provides for the first time up to date material about the court systems their structures their personnel their jurisdictions of the major democratic nations Second it places the courts in their political context eschewing legalism and stressing their linkages with other institutions and their role in the policy process Third there is an attempt to assess the direction of contemporary change especially how it relates to broader themes of other types of political change
