**Beyond Britannia** Simon McDonald, 2024-04-03 An argument for a new approach to foreign policy in the United Kingdom What should the future of British foreign policy look like For too long successive governments have shied away from acknowledging uncomfortable truths about the decline of Britain's military capabilities As we approach the middle years of the twenty first century a new set of urgent and daunting challenges lie ahead including climate change technological development the rise of AI and a growing threat from China The need for us to reconcile ourselves with our position in the world has never been more acute In *Beyond Britannia* Reshaping UK Foreign Policy Simon McDonald persuasively argues that the United Kingdom's significant soft power strengths can be harnessed to expand its international influence Such a shift will only be possible he says if we first acknowledge the challenges of Brexit and the need to reduce our unrealistic hard power ambitions Excellence in areas that other countries care about will keep the United Kingdom internationally relevant in the second half of the century in a way that nostalgia for a lost pre-eminence will not
