

BORROWING COSTS

<i>Objective</i>	✓ The objective is accounting for borrowing costs. It does not deal with the actual or imputed cost of owner's equity including preference share capital not classified as liability.
<i>Meaning</i>	✓ These are the interest and other costs incurred by an enterprise in connection with the borrowing of funds.
<i>Inclusions</i>	<ul style="list-style-type: none"> ✓ It includes the following: <ul style="list-style-type: none"> ✦ Interest & related charges on bank borrowings (short term & long term) ✦ amortization of discounts or premiums relating to borrowings ✦ amortization of ancillary costs incurred ✦ finance charges in respect of assets acquired under finance leases ✦ exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Capitalisation of Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalised as part of the cost of that asset.
These are treated as directly attributable when such borrowing costs would have been avoided if the expenditure on the qualifying asset have not been made.
Determination of such directly attributable amount is an exercise of judgement.
Borrowing cost on any item other than the qualifying asset should be written off in the P&L A/c in the period in which they are incurred.
To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings
To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation should be determined by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate should be the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalised during a period should not exceed the amount of borrowing costs incurred during that period.

QUALIFYING ASSETS

<i>Meaning</i>	✓ A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.
<i>Substantial Period</i>	✓ As per ASI (Accounting Standard Interpretation), substantial period of time depends on the facts & circumstances of each case. However, a period of 12 months may be considered a substantial period of time.
