Intercultural Faultlines Maeve Olohan, 2017-09-29 Intercultural Faultlines offers an exploration of research models and methods in translation studies as implemented, discussed and critically evaluated by some of the leading researchers in the field of translation and interpreting. While the focus throughout is on textual and cognitive aspects of translation and interpreting the objects of study and consequently the methodological considerations are wide ranging. The volume contains chapters focusing on research conducted in areas as diverse as corpus based translation studies, dialogue interpreting, simultaneous interpreting, acquisition of translation competence, cognitive processes in translation, translation into the L2, creativity in translation and translation quality assessment. Some research models and methods are applied to translation for the first time while others are more established and can be assessed in terms of their reliability and the generalizability of the results they yield. Issues of research design and methodology are addressed and interesting questions are raised which are likely to become the focus of attention in future research, for example with regard to causal models of translation, translational ethics, collaborative research and issues of power in interpreting research.

Q School Confidential David Gould, 1998-01-31 In 1999 the PGA TOUR Qualifying Tournament, known to many as Q School, found itself sitting on 35 years of unique history. Q School Confidential chronicles this tournament's deep, dense story of heartbreak, black humor, back room politics and magnificent golf under dire circumstances. Using the 1998 PGA TOUR Qualifying School finals as his backdrop, golf writer David Gould recounts for the first time ever the history of the pro tour's annual qualifier with revealing anecdotes about raw rookies, aging veterans and every dreamer in between. The vintage stories in the Q School's near and distant past tell of emotional and physical breakdown and courage as well as under pressure Jim Carter's self-confessed choke stories of 1990 and 1992, Mark McCumber's recurring lost scorecard nightmare, Peter Jacobsen's ordeal with a cheater on the Mexican border, Jim McLean's bizarre arrest on the qualifier's eve and Mac O'Grady's violent celebration of his long-awaited Q School success. The players captured in these pages turn white with panic, vomit their breakfast, sleep in their cars, practice on interstate ranges, lose golf shoes, forget contact lenses and make fateful decisions based on faulty information. Sifting back through several eras, Gould explains the innocent aims of the first Q Schools and uncovers the tournament's pivotal role in the momentous split up of the PGA and the PGA TOUR. He examines the difficult question of how professional golf should go about bringing in new players and letting former players regain their privileges. In the voices of forgotten or never known tour pros from the 1970s, he narrates the frustrating rabbit era that Q School helped create and revisits the infamous breakaway Q School of 1968. In notes that accompany this book's exclusive year-by-year scoring records, the author picks out hidden turning points, bits of trivia and strange coincidences in the lives of tour players past and present. These profiles and snapshots of the earliest Q School survivors and the most recent graduates, as well as those who are woven together in a warm, engaging and insightful narrative.
