between individual and collective difference in order to understand what is required to help children with intellectual disability become themselves and form their personal self identity The Pedagogy of Special Needs Education can be used in schools seminars and courses related to special education programs and in special needs curricula for children with developmental disabilities It can also support childcare professionals who carry orthopedagogical responsibilities and who are concerned about the wellbeing of children and their families experiencing special needs Additionally this book is valuable to students researchers teachers and others interested in a hermeneutic phenomenological approach to human science professional practice issues and qualitative research methods
