Buddhism In Contemporary Tibet:

Buddhism in Contemporary Tibet Melvyn C. Goldstein, Matthew T. Kapstein, 2023-09-01 Following the upheavals of the Cultural Revolution the People's Republic of China gradually permitted the renewal of religious activity Tibetans whose traditional religious and cultural institutions had been decimated during the preceding two decades took advantage of the decisions of 1978 to begin a Buddhist renewal that is one of the most extensive and dramatic examples of religious revitalization in contemporary China The nature of that revival is the focus of this book Four leading specialists in Tibetan anthropology and religion conducted case studies in the Tibet autonomous region and among the Tibetans of Sichuan and Qinghai provinces There they observed the revival of the Buddhist heritage in monastic communities and among laypersons at popular pilgrimages and festivals Demonstrating how that revival must contend with tensions between the Chinese state and aspirations for greater Tibetan autonomy the authors discuss ways that Tibetan Buddhists are restructuring their religion through a complex process of social political and economic adaptation Buddhism has long been the main source of Tibetans pride in their culture and country These essays reveal the vibrancy of that ancient religion in contemporary Tibet and also the problems that religion and Tibetan culture in general are facing in a radically altered world Following the upheavals of the Cultural Revolution the People's Republic of China gradually permitted the renewal of religious activity Tibetans whose traditional religious and cultural institutions had been decimated during the preceding two decades

Buddhism in Contemporary Tibet Melvyn C. Goldstein, 1998 **Buddhism Between Tibet and China** Matthew Kapstein, 2009-04 As Tibet enters into its 50th year of Chinese rule questions of cultural distinctions and similarities are formed to determine the future of the relationship between the Snow Lion and the Red Dragon But often left unsaid is the long history the two share and the cultural interchanges that have existed over time Setting political agenda aside Matthew Kapstein has assembled a collection of essays to probe the nature of this relationship from the Tang Dynasty 618 907 CE to the present The historical accounts that comprise this volume display the dialogue between Tibet and China surrounding scholarship the fine arts politics philosophy and religion providing insight into the history behind the relationship from a variety of geographical regions

The Tibetans Matthew T. Kapstein, 2013-06-05 This book provides a clear and comprehensive introduction to Tibet its culture and history A clear and comprehensive overview of Tibet its culture and history Responds to current interest in Tibet due to continuing publicity about Chinese rule and growing interest in Tibetan Buddhism Explains recent events within the context of Tibetan history Situates Tibet in relation to other Asian civilizations through the ages Draws on the most recent scholarly and archaeological research Introduces Tibetan culture particularly social institutions religious and political traditions the arts and medical lore An epilogue considers the fragile position of Tibetan civilization in the modern world *The Spread of Tibetan Buddhism in China* Dan Smyer Yu, 2013-03-01 Focusing on contemporary Tibetan Buddhist revivals in the Tibetan regions of the Sichuan and Qinghai Provinces in China this book

explores the intricate entanglements of the Buddhist revivals with cultural identity state ideology and popular imagination of Tibetan Buddhist spirituality in contemporary China In turn the author explores the broader socio cultural implications of such revivals Based on detailed cross regional ethnographic work the book demonstrates that the revival of Tibetan Buddhism in contemporary China is intimately bound with both the affirming and negating forces of globalization modernity and politics of religion indigenous identity reclamation and the market economy The analysis highlights the multidimensionality of Tibetan Buddhism in relation to different religious cultural and political constituencies of China By recognizing the greater contexts of China s politics of religion and of the global status of Tibetan Buddhism this book presents an argument that the revival of Tibetan Buddhism is not an isolated event limited merely to Tibetan regions instead it is a result of the intersection of both local and global transformative changes The book is a useful contribution to students and scholars of Asian religion and Chinese studies

Korom,1997 *Traveller in Space* June Campbell,2018-05-31 In this revised edition of June Campbell s ground breaking and ambitious work many of the key issues concerning gender identity and Tibetan Buddhism are now broadened and further clarified in order to create a better understanding of the historical importance of gender symbolisation in the very construction of religious belief and philosophy With its cross cultural stance the book concerns itself with the unusual task of creating links between the symbolic representations of gender in the philosophy of Tibetan Buddhism and contemporary western thinking in relation to identity politics and intersubjectivity A wide range of sources are drawn upon in order to build up arguments concerning the complexities of individual gender roles in Tibetan society alongside the symbolic spaces allocated to the male and female within its cultural forms including its sacred institutions its representations and in the enactment of ritual And in the light of Tibetan Buddhism s popularity in the west timely questions are raised concerning gender and the potential uses and abuses of power and secrecy in Tibetan Tantra which with its unique emphasis on guru devotion and sexual ritual is now being disseminated worldwide What is made clear in this new edition however is that Campbell s ultimate aim is to elucidate

through the use of a psychoanalytical perspective something of the dynamic inter relationship between the inner lives of individuals their gender identities in society and the belief systems which they create in order to provide cohesion continuity and meaning whether it be in the east or the west

Frontier Tibet Stéphane Gros, 2025-10-01 Frontier Tibet Patterns of Change in the Sino Tibetan Borderlands addresses a historical sequence that sealed the future of the Sino Tibetan borderlands It considers how starting in the late nineteenth century imperial formations and emerging nation states developed competing schemes of integration and debated about where the border between China and Tibet should be It also ponders the ways in which this border is internalised today creating within the People's Republic of China a space that retains some characteristics of a historical frontier The region of eastern Tibet called Kham the focus of this volume is a productive lens through which processes of place making and frontier dynamics can be analysed Using historical records and ethnography the authors challenge purely externalist approaches to convey a sense of Kham's own centrality and the agency of the actors involved They contribute to a history from below that is

relevant to the history of China and Tibet and of comparative value for borderland studies **Tibetan Medicine in Contemporary Tibet** Tibet Information Network,2004 This book examines the social political and economic issues that are impacting the use availability and production of Tibetan medicine as well as the cultural identity associated with Tibetan medicine in contemporary Tibet It fosters its future prospects as a science healing art and an affordable and available component of the health care systems at work in Tibet After a brief general introduction into Tibetan medical tradition the book sketches its history with particular reference to the founding of medical institutions in historical Tibet and how these institutions have changed since the 1950s It then explores Tibetan medical education in its modern context with particular attention to the formation of new kinds of schools and training programmes for Tibetan medicine many of them funded by foreign NGOs A further focus of the book is on the production and commercialisation of Tibetan medicines Although the particular story of Tibetan medicine in contemporary Tibet and in the People s Republic of China PRC is less grim than other aspects of Tibet s recent political and cultural history it is a tale of contradiction dramatic change and an uncertain future
