

# Building History

**James Fergusson**

## **Building History:**

**History of the Development of Building Construction in Chicago** Frank Alfred Randall, John D. Randall, 1999 The second edition of *History of the Development of Building Construction in Chicago* is a tribute to Frank Randall's vision and resource to Chicago area architects, engineers, preservation specialists and other members of the building industry. **BOOK JACKET** *Building the Dream* Gwendolyn Wright, 1983-04-11 The evolution of housing in America. This book is concerned essentially with the model of domestic environment in this country as it has evolved from colonial architecture through current urban projects. Beginning with Puritan townscape topics include urban row housing, Big House and slave quarters, factory housing, rural cottages, Victorian suburbs, urban tenements, apartment life, bungalows, company towns, planned residential communities, public housing for the poor, suburban sprawl. **A History of Building Types** Nikolaus Pevsner, 1976 Why does the Hilton Hotel look different from a coaching inn? Is it because of changes in architectural taste or changes in the hotel business? Pevsner argues that the study of building types is a history of institutions and their changing requirements. *A History of Building Control in England and Wales 1840-1990* A. J. Ley, 2000 Investigates the origins of building control in England and Wales, tracing the evolution of the system through various Acts of Parliament, regulations and bye laws. This book also looks at social and political issues which influenced the development of building control.

**Historical Building Construction: Design, Materials, and Technology (Second Edition)** Donald Friedman, 2010 Winner of the Association for Preservation Technology (APT) 2012 Lee Nelson Book Award, this book is an updated edition of the classic text detailing the ins and outs of old building construction. A comprehensive guide to the physical construction of buildings from the 1840s to the present, this study covers the history of concrete, steel and skeleton frame buildings, provides case histories that apply the information to a wide range of actual projects and supplies technical data essential to professionals who work with historic structures. **A Short History of the Building Crafts** Martin Shaw Briggs, 1925 Illustrated with over 250 drawings, this book covers architectural history and building construction, focusing on the various crafts involved in the construction of buildings. *The South in the Building of the Nation: History of the States*, ed. by J. A. C. Chandler, Julian Alvin Carroll Chandler, Franklin Lafayette Riley, James Curtis Ballagh, John Bell Henneman, Edwin Mims, Thomas Edward Watson, Samuel Chiles Mitchell, Walter Lynwood Fleming, Joseph Walker McSpadden, 1909 *A history of architecture in all countries, from the earliest times to...* James Fergusson, 1873 **The Buildings of Detroit** W. Hawkins Ferry, 1980 First published in 1968, *The Buildings of Detroit: A History* by W. Hawkins Ferry is the definitive resource on the architecture of Detroit and its adjacent communities from pioneering times to the end of the twentieth century. Ferry based his impressive volume on thirteen years of meticulous research, interviews with many prominent architects and hundreds of photos commissioned specifically for the book. Ferry revised *The Buildings of Detroit* in 1980, adding the Renaissance Center and other modern works, and this re-released version presents the revised edition, adding only a new

foreword by John Gallagher The Buildings of Detroit spans from the early 1700s when the city was a fur trading post in the wilderness to its more contemporary position as the capital of the automotive industry and a major industrial city Along the way Ferry offers glimpses of the log cabins of early explorers and soldiers the Victorian mansions of lumber barons and the Grosse Pointe and Bloomfield Hills residences of motor magnates He traces the development of new building techniques that gave rise to the American skyscraper and the modern factory Ferry details all of downtown s landmark buildings including many that are no longer standing and visits fascinating neighborhood structures like movie theaters hotels shopping centers and apartment buildings In each chapter readers will meet the visionary architects and clients whose foresight and initiative helped shape the fabric of one of America s great cities The Buildings of Detroit also includes a selected chronology maps references notes an extensive index and 475 illustrations Previously out of print and difficult to find this re released classic will be treasured by Detroit history buffs and architectural historians

*A History of Real Estate, Building and Architecture in New York City During the Last Quarter of a Century*, 1898

*Buildings in Wood* Will Pryce, 2005 From the very beginning of architecture long before the invention of masonry buildings were constructed of wood With its unique qualities of form color and structure wood is the most reliable building material at the core of architecture This epic history is the first comprehensive survey of the use of wood in architecture throughout the ages The book is organized both chronologically and geographically It surveys works from the oldest heritage of wooden buildings Kyoto s Buddhist temples and Scandinavia s pagan inspired stave churches to the latest cutting edge designs proving that wood is on the rise as the preferred material in these ecologically conscious times No region of the world with a native tradition of building with wood is left out In North America the book demonstrates the European origins of New England s clapboards and saltboxes and later shows how such sophisticated California architects as Greene Greene or Bernard Maybeck could blend age old traditions of the Far East and Switzerland with a Pacific Coast sense of novelty and whimsy Spectacular and diverse photographs highlight the architectural masterpieces of wooden architecture throughout the world illustrating that wood is a building material with a deep history as well as a vibrant future

*Architecture: An Introduction to the History and Theory of the Art of Building* W. R. (William Richard) Lethaby, 2018-10-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

*The Architecture of Rome* Ulrich Fürst, 1998 Architects and artists have always

acknowledged over the centuries that Rome is rightly called the eternal city Rome is eternal above all because it was always young always in its prime Here the buildings that defined the West appeared over more than 2000 years here the history of European architecture was written The foundations were laid even in ancient Roman times when the first attempts were made to design interiors and thus make space open to experience as something physical And at that time the Roman architects also started to develop building types that are still valid today thus creating the cornerstone of later Western architecture In it Rome s primacy remained unbroken whether it was with old St Peter s as the first medieval basilica or new St Peter s as the building in which Bramante and Michelangelo developed the High Renaissance or with works by Bernini and Borromini whose rich and lucid spatial forms were to shape Baroque as far as Vienna Bohemia and Lower Franconia and also with Modern buildings of which there are many unexpected pearls to be found in Rome All this is comprehensible only if it is presented historically i e in chronological sequence and so the guide has not been arranged topographically as usual but chronologically This means that one is not led in random sequence from a Baroque building to an ancient or a modern one but the historical development is followed successively Every epoch is preceded by an introduction that identifies its key features This produces a continuous lavishly illustrated history of the architecture of Rome and thus at the same time of the whole of the West Practical handling is guaranteed by an alphabetical index and detailed maps whose information does not just immediately illustrate the historical picture but also makes it possible to choose a personal route through history

*Building Natural History* Carla Yanni,1994     **A Standard History of Kansas and Kansans** ,1918     *A History of New England* R. H. Howard, Henry E. Crocker,1879     ... **Annual Register of the State University of Nevada for the Year ... with Announcements for the Academic Year of ...** University of Nevada,1922     **A History of the Valley of Virginia** Samuel Kercheval,1925     History of Iowa from the Earliest Times to the Beginning of the Twentieth Century by Benjamin T. Gue: The pioneer period.- v. 2. The civil war.- v. 3. From 1866 to 1903.- v. 4. Iowa biography Benjamin F. Gue,1903     American Architect and Building News ,1876
