Narrative Matthias Ostermann,2006-07-06 The Ceramic Narrative is an exploration of past and present ceramic iconography
 concerned with the depiction of narratives or with images meant to be thought provoking beyond the merely decorative The
 book is beautifully illustrated with an extensive variety of work from history and the present day showing how many
 contemporary artists continue this tradition with modern interpretations Examining ancient Greece the ceramic imagery of
 the Maya culture the ceramics of China Persia and Japan European tin glaze traditions and the narrative imagery appearing
 on later European porcelains Matthias Ostermann attempts wherever possible not only to present ceramic narratives in their
 cultural and historical contexts but also to refer to some of the older myths and sources that may have served as inspiration
 Applied arts writer David Whiting contributes an essay on the development of ceramic narratives in the twentieth century
 while illustrations present the work of more than 75 contemporary international ceramic artists who explore narrative in
 distinctive and different ways These include the exploration of mythologies and existing stories personal visions private
 stories and memory the human figure relationships and identity political and social commentary and finally the ceramic
 object itself seen as message and metaphor This book will serve as a beginning for further study of this fascinating and little
 explored subject and as a celebration of the work of all ceramic artists whose passion is the ceramic narrative *Bulletin of*
