Centre Forward A Radical Conservative Programme:

Centre Forward Rhodes Boyson, 1978 *Britain's Conservative Right since 1945* Kevin Hickson, 2019-10-23 Winner of the Political Studies Association Conservatism Studies Group prize 2020 This book provides a detailed analysis of the evolution of the Conservative Right in Great Britain since 1945 It first explores the movement's core ideas and highlights points of tension between its different strands The book then proceeds with a thematically structured discussion The Conservative Right's views on the decline and fall of the British Empire immigration control European integration the British constitution the territorial integrity of the United Kingdom Britain's economy the welfare state and social morality and social change are all explored In the concluding chapter the author evaluates the extent to which the Conservative Right has succeeded in its core objectives since 1945 and addresses how it can best respond to a contemporary Britain in which it instinctively feels uncomfortable The book is based on extensive elite interviews and archival research and will be of interest to anyone who seeks to place the contemporary Conservative Right in a greater historical context **Principles and**

Politics in Contemporary Britain Mark Garnett, 2013-10-28 This book shows the importance of political ideas in policy making and demonstrates the extent to which pragmatic considerations preclude the imposition of rigid ideological programmes It charts the decline of the postwar British consensus the changing face of both the Conservative and Labour parties under the long shadow of Thatcherism and the growing emergence of single issue policies such as environmentalism and feminism With an extensive bibliography and suggested seminar and essay topics *Principles and Politics* can be used on any course which focuses on contemporary British politics as well as having general appeal to those interested in looking at the contemporary political and ideological debate in the context of wider issues and trends This second edition is completely revised and updated *A Conservative Consensus?* Peter King, 2015-12-17 New Labour would like to portray 1997 as a new beginning for public policy but Peter King argues that we now have in housing and in other areas of public policy a consensus based on Thatcherite reforms He explores the particularly conservative understanding of housing that transformed public attitudes in the 1980s and 1990s and the impact it still has on policy This book is written with non housing specialists in mind and will be of interest to students of housing urban studies public policy and politics at both undergraduate and higher levels

Housing Policy Transformed Peter King, 2010 This book seeks to understand the Right to Buy the most controversial housing policy of the last 30 years on its own terms rather than most studies which focus on its negative impact It explains how the policy links with a coherent ideology based on self interest and the care of things close to us **Local Government**

and Thatcherism Hugh Butcher, Ian G. Law, Robert Leach, Maurice Mullard, 2024-12-02 The 1980s witnessed an unprecedented series of initiatives aimed at transforming the role and manner of local government operations in Britain First published in 1990 *Local Government and Thatcherism* provides a clear and up to date framework for understanding the impact of Thatcherism on local government during this period and explores future prospects The authors examine the effect

of the Thatcher Revolution on the policy and practice of local government looking at the role of ideology in key policy areas such as finance public services local economic development race and decentralization Beginning with an analysis of the evolution of local government the authors situate Thatcherism in the context of Municipal Toryism and discuss changes in local finance including the introduction of the community charge They focus on changes in public policy particularly innovations like grant maintained schools and Housing Action Trusts and look in detail at economic regeneration and equal opportunities two areas in local policy development which are increasingly under threat from centralizing tendencies The authors conclude that the revolution in local government is aimed at nothing less than recasting the local socio political order and political process Coming to terms with these challenges they believe will change the face of local government in 1990s the contract authority the enterprising authority and the business corporatist authority Lucid and stimulating this discussion will be invaluable to students of British politics and public and social administration and to all those who wish to know more about the future of local government
