

CULTURAL IMPERIALISM

Cultural imperialism occurs when a dominant community imposes their culture on a less politically or economically powerful community.

ORIGINS

Edward Said developed the theory in his book *Orientalism* (1979).

Said stated that colonialism does not merely imply the territorial occupation and domination of a foreign land, but also speaks to a particular way of thinking about the other and understanding the world.

EXAMPLE

Thanks to Hollywood, television channels, and technological globalization (e.g., Apple, Microsoft, Amazon), American popular culture has spread globally. Many scholars claim this has led to cultural homogenization, the development of a hegemonic global culture, and the McDonaldization of culture, all at the expense of local cultures.

particular culture at the expense of other cultures In his definition Kottak not only focuses on media effects but includes explicitly economic and political forces Thus Kottak s definition includes all types of effects which advance one culture Sreberny Mohammadi 1997 p 50 criticises the term cultural imperialism because it reduces culture to the products of the culture industries and often described also as media imperialism only focuses on the impact of modern media or multinational corporations All theoretical problems related to this term shall not be discussed here but it is obvious that cultural imperialism has different meanings in different academic and non academic discourses
