Cultural Theory And The Problem Of Modernity:

Cultural Theory and the Problem of Modernity Alan Swingewood, 1998-08-24 This book presents a critical analysis of the relation between sociological theory and recent debates in cultural studies A distinctive sociological perspective is developed based on the work of Marx Weber Bourdieu and Bakhtin The book examines the problems of theorising issues such as modernity mass culture and postmodernity by advocating a historical and context based approach Cultural Theory and Late Modernity Johan Fornäs, 1995 This text offers an overview of contemporary cultural theory Drawing together different approaches and traditions the author demonstrates the breadth of the field of cultural theory and proposes a multidimensional model for understanding culture in late modernity **Gendering the Spaces of Modernity** Jessica Ellen Sewell, 2000 *Modernity and Postmodern Culture* Jim McGuigan, 2006-07-16 Modernity and Postmodern Culture critically assesses claims made about the postmodernization of culture and society and explores the complex interplay between the modern and the postmodern in an increasingly globalized world The author argues that although culture may be postmodern in terms of art entertainment and everyday life modernity still exists and is pervasive The second edition is revised throughout updating the literature and viewing international events through a modernist postmodernist gaze The theories of Baudrillard Beck Castells Giddens Jameson Lyotard and others are discussed and specific issues concerning architecture theme parks screen culture science technology and the environment are examined Topics include Postmodern architecture and the hyperreality of Disney How poststructuralist theory questions modern rationality and reason The relations between postmodern culture global capitalism and the technological changes brought about by electronics and computing The network society The book is key reading for students on courses in cultural politics cultural theory popular culture and sociology **The Persistence of the Modern** López Silvia Lucinda, 1999 Which Way to the Modern Art Museum? Katarzyna Pieprzak, 2001 Critical Citizens for an Intercultural World Manuela Guilherme, 2002 This book examines the acquisition of requests in English by a seven year old Japanese girl during her 17 month residence in Australia The study focuses on the linguistic repertoire available to the child as she attempts to make requests and vary these to suit different goals and addressees This book helps unravel features of pragmatic development in the child s interlanguage a subject about which we yet know very little **Two Vermonts** Paul M. Searls, 2006 A piercing new look at nineteenth century Vermont politics and society and the evolution of a people **The structure of modern cultural theory** Thomas Osborne, 2013-07-19 This book is about the claims of Cultural Theory as a particular kind of intellectual ethos or discipline The book argues that Cultural Theory is best seen at least in its modern form as an ethical discipline As such it should be seen as a form of inquiry governed by the guiding idea of the cultivation of critical autonomy and as such is designed as much to change what we are in our relations to ourselves as to describe the world as it is in particular positive ways The content of the book develops this argument through critical readings of three canonical writers namely Theodor Adorno Michel Foucault

and Pierre Bourdieu A final chapter contrasts the ethical idea of modern Cultural Theory developed here with its postmodern derivations which it is argued have taken both a more positivist and even more moralistic form **Bibliographic Guide to Psychology** New York Public Library. Research Libraries,1999 **Cumulated Index to the Books** ,1999 **Sociological Abstracts** Leo P. Chall,2001 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Politics, Ideology, and Literary Discourse in Modern China** Kang Liu,Xiaobing Tang,1993-11-16 This collection of essays addresses the perception that our understanding of modern China will be enhanced by opening the literature of China to more rigorous theoretical and comparative study In doing so the book confronts the problematic and complex subject of China s literary theoretical and cultural responses to the experience of the modern With chapters by writers scholars and critics from mainland China Hong Kong and the United States this volume explores the complexity of representing modernity within the Chinese context Addressing the problem of finding a proper language for articulating fundamental issues in the historical experience of twentieth century China the authors critically re examine notions of realism the self subject and modernity and draw on perspectives from feminist criticism ideological analysis and postmodern theory Among the many topics explored are subjectivity in Chinese cultural theory Chinese gender relations the viability of a Lacanian approach to Chinese identity the politics of subversion in Chinese reportage and the ambivalent status of the icon of paternity since Mao At the same time this book offers a probing look into the transformation that Chinese culture as well as the study of that culture is currently undergoing it also reconfirms private discourse as an ideal site for an investigation into a real and imaginary private and collective encounter with history Contributors Liu Kang Xiaobing Tang Liu Zaifu Stephen Chan Lydia H Liu Wendy Larson Theodore Hutters David Wang Tonglin Lu Yingjin Zhang Yuejin Wang Li Tuo Leo Ou fan Lee

Cultural Theory and Cultural Change Mike Featherstone,1992 Recent years have seen a significant reappraisal of the idea of culture within the social sciences and a growing integration of theoretical concerns between the social sciences and the humanities Debates over concepts such as postmodernism and cultural globalization have been symptomatic of a broader interdisciplinary interest in the social context of cultural practice In this book an international cast of eminent theorists examines a series of key questions on the borders of the cultural and the social Ranging across a broad canvas the contributors focus on different elements of cultural theory and cultural process discourse lifestyle the emotions the intelligentsia social movements postmodernism Linking the chapters is a concern with the central role of European social theory in the current reappraisal of culture and an assessment of its relation to other international traditions This book for an interdisciplinary readership will serve as an outline of key concerns in cultural theory and an insight into the central insights of Theory Culture and Society The book is also published as issue 9 1 of Theory Culture and Society **Impacts of**

Modernities Thomas LaMarre, Nae-hüi Kang, 2004 This book explores the problem of modernity with an emphasis on the impact of Western modernity on East Asia While the essays generally acknowledge modernity as a problem or even failure in order to challenge modernization and modernization theory the volume presents a number of different approaches to and evaluations of modernity in historical and contemporary frameworks *Cultural Studies of Modern Germany* Russell A. Berman, 1993 A study probing the ambiguities of German nationhood Berman takes a theoretical perspective of cultural studies exploring such themes as the constitution of nationhood what holds a citizenry together and history's role in providing a framework for current identities and institutions

Habermas, Modernity, and Public Theology Don S. Browning, Francis Schüssler Fiorenza, 1992 Jürgen Habermas is by far the most preeminent and influential philosopher in Germany today The scope of his writings is remarkable Their influence extends over a wide range of disciplines that include philosophy social theory hermeneutics anthropology linguistics ethics educational theory and public policy The impact of Habermas's writings on theology alone reaches from fundamental to political theology from moral to practical theology The significance of Habermas's *Modernity and Public Theology* is twofold First it represents a genuine dialogue an actual conversation between Habermas and theologians While theologians have appealed to Habermas's work in innumerable articles and monographs he himself until now has remained silent This book then is unique insofar as it offers the true give and take of dialogue Second this book focuses on Habermas's most recent work especially his interpretation of modernity his theory of communicative action and his development of a discourse ethics In so doing it corrects some of the prevalent misreadings of Habermas within the theological literature devoted to him In examining the relation between critical theory and a public and practical theology the contributors note both the promise and limitations of Habermas's basic arguments and insights They challenge Habermas as much as they learn from him Sharing the conviction that religious traditions contain sources for interpreting human nature and society they argue that if Habermas would attend more to the role of religion within life and society he would more fully realize his project for a communicative rationality under the conditions of modernity and would offer a more comprehensive understanding of rationality society and modernity Taking his own turn at the end of the book Habermas responds to each of the contributors' comments on the broader theological reception of his work and offers his own fascinating views on the function and development of religion in modernity and on the status and claim to truth of theological discourse The work concludes with an extremely useful annotated bibliography covering Habermas's own writings general introductions to Habermas and to critical theory and works devoted to specific aspects of Habermas's thought
