Culture Of Migration In Southern Mexico:

The Culture of Migration in Southern Mexico Jeffrey H. Cohen, 2009-06-03 Migration is a way of life for many individuals and even families in the Mexican state of Oaxaca. Some who leave their rural communities go only as far as the state capital while others migrate to other parts of Mexico and to the United States. Most send money back to their communities and many return to their homes after a few years. Migration offers Oaxacans economic opportunities that are not always available locally but it also creates burdens for those who stay behind. This book explores the complex constellation of factors that cause rural Oaxacans to migrate, the historical and contemporary patterns of their migration, the effects of migration on families and communities, and the economic, cultural, and social reasons why many Oaxacans choose not to migrate. Jeffrey Cohen draws on fieldwork and survey data from twelve communities in the central valleys of Oaxaca to give an encompassing view of the factors that drive migration and determine its outcomes. He demonstrates conclusively that while migration is an effective way to make a living, no single model can explain the patterns of migration in southern Mexico.

Cultures of Migration Hans Peter Hahn, Georg Klute, 2007 International Migrations have become a central topic in the Humanities in the last years. Understanding migration requires a closer look at the migratory phenomena and the continuities within the societies involved in the migration process. This volume intends to overcome simplistic views on migration and the shortcomings of a push and pull factor analysis. Instead, the perspective of the migrants themselves orients the approach of cultures of migration. In this view, migration becomes a complex issue and motives and acceptance of migration appear to be a matter of negotiations in the migrants' societies of origin and in the host societies as well. The present volume brings together a number of essays exploring the cultures of migration in various contexts. It is organized in three sections dealing with Migrations as Encounters, Migration as Challenge, and Transcontinental Migrants. Ten contributions, each based on original fieldwork in various parts of Africa, examine the validity of the concept of cultures of migration as explained in the introduction.

Refugees, Immigrants, and Education in the Global South Lesley Bartlett, Ameena Ghaffar-Kucher, 2013-07-04 The unprecedented human mobility the world is now experiencing poses new and unparalleled challenges regarding the provision of social and educational services throughout the global South. This volume examines the role played by schooling in immigrant incorporation or exclusion using case studies of Thailand, India, Nepal, Hong Kong, PRC, the Philippines, the United Arab Emirates, Jordan, Kenya, Egypt, South Africa, Senegal, Sudan, Mexico, and the Dominican Republic. Drawing on key concepts in anthropology, the authors offer timely sociocultural analyses of how governments manage increasing diversity and how immigrants strategize to maximize their educational investments. The findings have significant implications for global efforts to expand educational inclusion and equity.
