Culture Through Objects

Kerry Dodd

Culture Through Objects:

Objects of Culture in the Literature of Imperial Spain Mary Barnard, Frederick A. de Armas, 2013-03-14 Collecting and displaying finely crafted objects was a mark of character among the royals and aristocrats in Early Modern Spain it ranked with extravagant hospitality as a sign of nobility and with virtue as a token of princely power *Objects of Culture in the Literature of Imperial Spain* explores how the writers of the period shared the same impulse to collect arrange and display objects though in imagined settings as literary artefacts These essays examine a variety of cultural objects described or alluded to in books from the Golden Age of Spanish literature including clothing paintings tapestries playing cards monuments materials of war and even enchanted bronze heads The contributors emphasize how literature preserved and transformed objects to endow them with new meaning for aesthetic social religious and political purposes whether to perpetuate certain habits of thought and belief or to challenge accepted social and moral norms **Encountering Material Culture Through Archaeological Fiction** Kerry Dodd, 2024-12-12 Investigating the representation of artefacts objects and things in a range of predominantly Western archaeological fiction from the late Victorian period to the modern day this book examines the narratives through which humanity represents its own material heritage in relation to notions of enchantment exhibition estrangement adventure tourism and waste Kerry Dodd asserts that comprehending the structures through which material culture is presented within archaeological media reveals the structures that transform an object from rubbish to relic Calling upon such indicative literature films TV series and video games as *Tomb Raider* *Indiana Jones* *Uncharted* and *Relic Hunter* this book explores the depiction of material culture through three principal areas relics exhibition and adventure Outlining a critical framework of artefact representation Dodd argues that such iconic moments as Howard Carter's remark that he saw wonderful things when he broke into the antechamber of Tutankhamun's tomb remain recognisable through the evocation of a spectacular visual despite little concrete definition of the objects witnessed This book offers a unique exploration of how such figures as *Indiana Jones* *Lara Croft* and *Carter* have cemented a cultural recognition of what an artefact constitutes as being dependent on how an object is encountered It is through the very wonder of things that Dodd breaks down the boundaries between popular and professional archaeology by pushing forward critical considerations of material culture **Learning Things** Doug Blandy, Paul E. Bolin, 2018 Through activities approaches and examples this resource highlights concrete strategies for incorporating material culture into K-16 art classrooms as well as museum and community settings Chapters are written by luminaries in the field and organized around various aspects of material culture including object study the role of technology and multisensory art *Learning Things* is a resource abounding in lucid insights into how everyday objects impact teaching and learning in art I am certain this book will quickly become a foundational text in our field Juan Carlos Castro chair NAEA Research Commission Filled with excellent examples and teaching strategies this book brings to life the interdisciplinary stories objects hold and the ways we can use them in research and teaching Deborah

L. Smith Shank, The Ohio State University. In this intimate and educative book, Doug Blandy and Paul Bolin invite us to consider how things come into appearance and take form in the uses to which they are put. If you have ever wondered how we find and lose ourselves in the things that we create, collect, or carry with us, then this book is for you. *D. O. Donoghue*, The University of British Columbia. **Jewish Life and Culture in Germany after 1945**, Katrin Keßler, Sarah M. Ross, Barbara Staudinger, Lea Weik, 2022-08-22. How was the re-emerging Jewish religious practice after 1945 shaped by traditions before the Shoah? To what extent was it influenced by new inspirations through migration and new cultural contacts? By analysing objects like prayer books, musical instruments, Torah scrolls, audio documents, and prayer rooms, this volume shows how the post-war communities created new Jewish musical, architectural, and artistic forms while abiding by the tradition. This peer-reviewed volume presents contributions to the conference *Jewish Communities in Germany in Transition*, held in July 2021, as well as the results of a related research project carried out by two university institutions and two museums: the Bet Tfila Research Unit for Jewish Architecture, Technische Universität Braunschweig; the European Center for Jewish Music, Hanover University for Music, Drama, and Media; the Braunschweigisches Landesmuseum; and the Jewish Museum Augsburg Swabia. For the first time, post-war synagogues in Germany and their objects were researched on a broad and interdisciplinary basis regarding history of architecture, art history of their furniture and ritual objects, as well as liturgy and musicology. The project was funded by the Federal Ministry of Education and Research (BMBF) during the years 2018 to 2021 in its funding line *The Language of Objects*. Objects to Learn about and Objects for Learning 2, Joel Bisault, Roselyne Le Bourgeois, Jean-François Themines, Mickael Le Mentec, Celine Chauvet-Chanoine, 2022-03-01. Resulting from a conference that took place in Amiens, France, in June 2019, this book examines the place and role of objects centered in teaching practices from kindergarten to university, both in the context of France and elsewhere. These objects for learning are considered in their physicality as productions, work, or signs that are used for learning. They become objects to learn about when the object itself is the learning objective. This book offers a cross-disciplinary perspective linking the different disciplinary fields studied and the many reference sources used by the authors. This two-volume work offers an overview of current research on the subject, with this second volume focusing on objects in representations of space and time, then on learners' activities in the making or use of objects, before concluding with different cultural and philosophical perspectives on objects. The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene, Jack Thornburg, 2024-10-02. This book examines how modern society arrived at such a destructive environmental and social stage, suggesting that three great crises have converged: climate change, capitalism as a logic system, and questions of consumer society and social identity. *What Objects Mean*, Arthur Asa Berger, 2016-06-16. Arthur Asa Berger, author of an array of texts in communication, popular culture, and social theory, is back with the second edition of his popular, user-friendly guide for students who want to understand the social meanings of objects. In this broadly interdisciplinary text, Berger takes the reader through half a dozen theoretical

models that are commonly used to analyze objects He then describes and analyzes eleven objects many of them new to this edition including smartphones Facebook hair dye and the American flag showing how they demonstrate concepts like globalization identity and nationalism The book includes a series of exercises that allow students to analyse objects in their own environment Brief and inexpensive this introductory guide will be used in courses ranging from anthropology to art history pop culture to psychology

Consumption and Material Culture in Contemporary Japan Michael Ashkenazi, J. R. Clammer, 2000 Navigating within the context of Japanese studies this book examines a range of topics including the role of objects in the educational socialisation of young children the transformation of everyday objects through the process of commodification the culture of the collection and display of antiques and artefacts and more

Social Change with Respect to Culture and Original Nature William F. Ogburn, 1922 *Culture and Consumption* Grant David McCracken, 1990-11-22 This book compiles and integrates highly innovative work aimed at bridging the fields of anthropology and consumer behavior Journal of Consumer Affairs fascinating ambitious and interesting Canadian Advertising Foundation Newsletter an anthropological dig into consumerism brimming with original thought The Globe and Mail Grant McCracken has written a provocative book that puts consumerism in its place in Western society at the centre Report on Business Magazine a stimulating addition to knowledge and theory about the interrelationship of culture and consumption Choice McCracken s synthesis of anthropological and consumer studies material will give historians new ideas and methods to integrate into their thinking Maryland Historian The book offers a fresh and much needed cultural interpretation of consumption Journal of Consumer Policy The volume will help balance the prevailing cognitive and social psychological cast of consumer research and should stimulate more comprehensive investigation into consumer behavior Journal of Marketing Research broad scope enthusiasm and imagination a significant contribution to the literature on consumption history consumer behavior and American material culture Winterhur Portfolio For this is a superb book a definitive exploration of its subject that makes use of the full range of available literature American Journal of Sociology McCracken s book is a fine synthesis of a new current of thought that strives to create an interdisciplinary social science of consumption behaviors a current to which folklorists have much to contribute Journal of American Folklore This provocative book takes a refreshing new view of the culture of consumption McCracken examines the interplay of culture and consumer behavior from the anthropologist s point of view and provides new insights into the way we view ourselves and our society

Venesection Walton Forest Dutton, 1916

History from Things Stephen Lubar, David W. Kingery, 2013-06-04 History from Things explores the many ways objects defined broadly to range from Chippendale tables and Italian Renaissance pottery to seventeenth century parks and a New England cemetery can reconstruct and help reinterpret the past Eighteen essays describe how to read artifacts how to listen to landscapes and locations and how to apply methods and theories to historical inquiry that have previously belonged solely to archaeologists anthropologists art historians and conservation scientists

Spanning vast time periods geographical locations and academic disciplines History from Things leaps the boundaries between fields that use material evidence to understand the past The book expands and redirects the study of material culture an emerging field now building a common base of theory and a shared intellectual agenda **The Living Age** ,1908
