Air War on the Edge Bill Norton,2004 Never before has there been a book published on the aircraft units and exploits of the Israel Air Force in such depth Interest in the IAF has always been high and seldom are its aircrew and aircraft out of the world s headlines Previous books have failed to satisfy either being sensationalist and low on factual content or lacking in fundamental research Bill Norton has trawled through thousands of documents reports and illustrations to produce a work that is staggering in its depth and knowledge Those that think they know the IAF will find a wealth of new material and countless previously published facts re evaluated and righted Detailed type by type coverage supported by a barrage of photographs of the IAF from the mixed bag of aircraft of its formative days through the Suez Campaign the Six Day War Yom Kippur and on to be a sophisticated well equipped force arguably the most experienced in the world Included for the first time are all of the badges and heraldry of the units of the IAF in full color Phantom from the Cockpit Peter Caygill,2005 The McDonnell Douglas F 4 Phantom was the outstanding aircraft in many of the Western World s air forces during the 1960s and 70s It played a key role in the Cold War and saw action in Vietnam It first flew in 1958 and went into operation with the US Navy in 1960 During its long front line life it flew in the roles of an interceptor fighter bomber and reconnaissance aircraft Apart from giving a comprehensive overview of the Phantom s history this book looks particularly at the experiences of the Royal Air Force and Fleet Air Arm when they received a new model designed with a British Rolls Royce turbofan instead of the original American power plant All was not sweetness and light when the first trials commenced and this book traces its development and progression from being a carrier based attack aircraft flown by the Fleet Air Arm to the many successful roles it played as a land based aircraft with the RAF Mikoyan MiG-29 'Fulcrum' Manual Dr. David Baker,2017-01-15 The Soviet MiG 29 air superiority fighter was developed by the Mikoyan Design Bureau in the mid 1970s to counter the new generation of American high performance interceptor fighters like the McDonnell Douglas F 15 Eagle and the General Dynamics F 16 Fighting Falcon **Aviation News** ,2009-07 Computer Gaming World ,2000 How To Steal A MIG-15 AIR TECHNICAL INTELLIGENCE CENTER,1955-04-26 The Infamous How to Steal a MIG manual This fascinating Air Force technical report is specifically focused on how a pilot behind the Iron curtain or enemy lines could know

just enough to start up and fly home a stolen MIG 15 fighter Finally declassified in 1988 and only released to the public in 2015 via a FOIA request by Governmentattic.org this unique look at Cold War Air Force intelligence product is a must read for students of Soviet era aviation Informally as the How to Steal a MIG manual it was interestingly published by the Air Technical Intelligence Center at Wright Patterson AFB in 1955 a mere two years after the U S obtained a functioning Mig 15 from N Korean defector No Kum Sok who defected to Kimpo Air Base on 21 September 1953 His MiG 15 was minutely inspected and was test flown by several test pilots including Chuck Yeager It is now in the collection of the National Museum of the United States Air Force near Dayton Ohio This manual has been prepared specifically for the purpose of providing USAF personnel with operating information on the MiG 15 Only the information the pilot must know is presented Some procedures which might be considered unorthodox for operational flying of this airplane are recommended because they represent the simplest means of assuring safe flight
