Cult Of The Koi:

Cult of the Koi Michugo Tamadachi,1994-03-01 **The Cult of the Koi** Michugo Tamadachi,1994 During the 1990 Nishikigoi Koi Show held in Tokyo a group of experts convened to discuss the knowledge which they considered vital for beginners and advanced koi lovers Dr Tamadachi was there and made copious notes about the fish in the show The notes resulted in this book *Tropical Fish Hobbyist* ,1996 **Animal Sacrifice in the Ancient Greek World** Sarah Hitch,Ian Rutherford,2017-08-24 This volume brings together studies on Greek animal sacrifice by foremost experts in Greek language literature and material culture Readers will benefit from the synthesis of new evidence and approaches with a re evaluation of twentieth century theories on sacrifice The chapters range across the whole of antiquity and go beyond the Greek world to consider possible influences in Hittite Anatolia and Egypt while an introduction to the burgeoning science of osteo archaeology is provided The twentieth century emphasis on sacrifice as part of the Classical Greek polis system is challenged through consideration of various ancient perspectives on sacrifice as distinct from specific political or even Greek contexts Many previously unexplored topics are covered particularly the type of animals sacrificed and the spectrum of sacrificial ritual from libations to lasting memorials of the ritual in art *Ancient Historiography on War and Empire* Timothy Howe,Sabine Müller,Richard Stoneman,2016-11-30 In the ancient Greek speaking world writing about the past meant balancing the reporting of facts with shaping and guiding the political interests and behaviours of the present *Ancient Historiography on War and Empire* shows the ways in which the literary genre of writing history developed to guide empires through their wars Taking key events from the Achaemenid Persian Athenian Macedonian and Roman empires the 17 essays collected here analyse the way events and the accounts of those events interact Subjects include how Greek historians assign nearly divine honours to the Persian King the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians warfare and financial innovation in the age of Philip II and his son Alexander the Great the murders of Philip II his last and seventh wife Kleopatra and her guardian Attalos Alexander the Great s combat use of eagle symbolism and divination Plutarch s juxtaposition of character in the Alexander Caesar pairing as a commentary on political legitimacy and military prowess and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority In some cases the balance shifts more towards the literary and in others more towards the historical but what all of the essays have in common is both a critical attention to the genre and context of history writing in the ancient world and its focus on war and empire **Pet Business** ,1998-07

The Yearbook of Symbolic Anthropology Erik Schwimmer,1978-01-01 *Performance, Memory, and Processions in Ancient Rome* Jacob A. Latham,2016-08-16 The pompa circensis the procession which preceded the chariot races in the arena was both a prominent political pageant and a hallowed religious ritual Traversing a landscape of memory the procession wove together spaces and institutions monuments and performers gods and humans into an image of the city whose contours

shifted as Rome changed In the late Republic the parade produced an image of Rome as the senate and the people with their gods a deeply traditional symbol of the city which was transformed during the empire when an imperial image was built on top of the republican one In late antiquity the procession fashioned a multiplicity of Romes imperial traditional and Christian In this book Jacob A Latham explores the webs of symbolic meanings in the play between performance and itinerary tracing the transformations of the circus procession from the late Republic to late antiquity

New Perspectives in Seleucid History, Archaeology and Numismatics Roland Oetjen,2019-12-16 Dedicated to Getzel M Cohen a leading expert in Seleucid history this volume gathers 45 contributions on Seleucid history archaeology numismatics political relations policy toward the Jews Greek cities non Greek populations peripheral and neighboring regions imperial administration economy and public finances and ancient descriptions of the Seleucid Empire The reader will gain an international perspective on current research

Caria and Crete in Antiquity Naomi Carless Unwin,2017-07-13 A persistent tradition existed in antiquity linking Caria with the island of Crete This central theme of regional history is mirrored in the civic mythologies cults and toponyms of southwestern Anatolia This book explains why by approaching this diverse body of material with a broad chronological view taking into account both the origins of this regional narrative and its endurance It considers the mythologies in the light of archaeologically attested contacts during the Bronze Age exploring whether such interaction could have left a residuum in later traditions The continued relevance of this aspect of Carian history is then considered in the light of contacts during the Classical and Hellenistic periods with analysis of how and in which contexts traditions survived The Carians were an Anatolian people however their integration into the mythological framework of the Greek world reveals that interaction with the Aegean was a fundamental aspect of their history
