## **Cultural Revolution:**

**The Cultural Revolution: A Very Short Introduction** Richard Curt Kraus, 2012-01-06 China's decade long Great Proletarian Cultural Revolution shook the politics of China and the world. Even as we approach its fiftieth anniversary the movement remains so contentious that the Chinese Communist Party still forbids fully open investigation of its origins, development and conclusion. Drawing upon a vital trove of scholarship, memoirs and popular culture, this Very Short Introduction illuminates this complex, often obscure and still controversial movement. Moving beyond the figure of Mao Zedong, Richard Curt Kraus links Beijing's elite politics to broader aspects of society and culture, highlighting many changes in daily life, employment and the economy. Kraus also situates this very nationalist outburst of Chinese radicalism within a global context, showing that the Cultural Revolution was mirrored in the radical youth movement that swept much of the world and that had imagined or emotional links to China's red guards. Yet it was also during the Cultural Revolution that China and the United States tempered their long hostility, one of the innovations in this period that sowed the seeds for China's subsequent decades of spectacular economic growth.

**The Cultural Revolution** Frank Dikötter, 2017-06-06. The concluding volume following Mao's Great Famine and The Tragedy of Liberation in Frank Dikötter's award-winning trilogy chronicling the Communist revolution in China. After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958-1962, an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy. The Cultural Revolution's goal was to purge the country of bourgeois, capitalistic elements he claimed were threatening genuine communist ideology. Young students formed the Red Guards, vowing to defend the Chairman to the death, but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity. As the country descended into chaos, the military intervened, turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people. *The Cultural Revolution: A People's History, 1962-1976* draws for the first time on hundreds of previously classified party documents, from secret police reports to unexpurgated versions of leadership speeches. After the army itself fell victim to the Cultural Revolution, ordinary people used the political chaos to resurrect the market and hollow out the party's ideology. By showing how economic reform from below was an unintended consequence of a decade of violent purges and entrenched fear, *The Cultural Revolution* casts China's most tumultuous era in a wholly new

light **Historical Dictionary of the Chinese Cultural Revolution** Guo Jian, Yongyi Song, Yuan Zhou, 2015-07-23 As the world's only English language historical dictionary of the Chinese Cultural Revolution 1966-1976 this book offers a comprehensive coverage of major historical figures, events, political terms and other matters relevant to this unique period of modern Chinese history that had profound influence on social and cultural movements of the world in the 1960s and 1970s. This second edition of *Historical Dictionary of the Chinese Cultural Revolution* covers its history through a chronology, an introductory essay, glossary, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about this important period in Chinese history. **Liu Shaoqi and the Chinese Cultural Revolution** Lowell Dittmer, 2015-02-12 By addressing the issues that decimated China's monolithic elite in the late 1960s, this text illuminates not only the life and fate of Liu Shaoqi but also the policy-making process of a revolutionary state facing the diverting exigencies of economic modernization and political development. **The Origins of the Cultural Revolution** Roderick MacFarquhar, 1999-11 This is the final volume in a trilogy that examines the politics, personalities, economics, culture, and international relations of China from the mid-1950s to the mid-1960s. It seeks to answer the central question: Why did Chairman Mao Zedong launch the Cultural Revolution 1966-76, which plunged China into chaos and almost destroyed its Communist Party? The Coming of the Cataclysm starts with the great famine of the early 1960s, which resulted in tens of millions of deaths and set in train a series of emergency measures that increasingly divided Mao from his comrades in arms. His anger that they were prepared to adopt capitalist methods to rescue the country was sharpened by his belief that Moscow had actually gone capitalist and sold out to the imperialist West. From 1961 to 1966, the period covered by this volume, the increasingly urgent question for Mao was how to prevent a similar revolutionary degeneration in China. The Cultural Revolution was his answer. Drawing upon new evidence from Party documents, personal interviews, books, and journals, MacFarquhar details the growing rift between Mao and his colleagues as they attempted to cope with domestic privation and an increasingly hostile international environment until the Chairman finally decided to smash the unity of the Yan'an Round Table by unleashing society against the party state. The Red Mirror Chihua Wen, 2018-02-12 These evocative stories bring to life the tragic personal impact of the Cultural Revolution on the families of China's intellectuals. Now adults, survivors recall their childhood during the tumultuous years between 1965 and 1976 when Mao's death finally drew a curtain on a bitterly failed social and political experiment. A series of first-person narratives eloquently describes the life-long influence of this seminal period on China's children. Those who were teenagers in the late 1960s joined the Red Guards and the revolutionary rebel groups following Mao's directives to make revolution, often to their own undoing. Those who were too young to participate directly were even more vulnerable. Although they had little understanding of the political firestorm that engulfed their parents, they were old enough to understand and feel the terror it

brought Vividly capturing the emotional intensity of the time these stories explore what it was like to be caught up in revolutionary fervor to be sent to the countryside to be separated either ideologically or physically from one's parents often forever By undermining families and family structure the Cultural Revolution created a generation of Chinese who view politics the Communist Party and life itself with deep cynicism Presenting a spectrum of individual stories of people who saw the Cultural Revolution through the eyes of a child The Red Mirror offers rare insights for understanding the crippling legacy of the Cultural Revolution

**China's Great Proletarian Cultural Revolution** Woei Lien Chong, 2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of the Cultural Revolution are content to point to the discredited cult of heroism and messianism this book also explores the alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic individuality new forms of social cohesion and historical truth Contributions by Anne Marie Brady Woei Lien Chong Lowell Dittmer Monika Gaenssbauer Nick Knight Stefan R Landsberger Nora Sausmikat Barend J ter Haar Natascha Vittinghoff and Lan Yang

*The Origins of the Cultural Revolution* Roderick MacFarquhar, 1983 The second volume in a trilogy which examines the politics economics culture and international relations of China from the mid 1950s to the mid 1960s this volume tells the story of the Great Leap Forward Mao's utopian attempt to propel China economically and socially into the twenty-first century by mobilizing his nation's greatest asset its disciplined manpower The effort produced economic disaster and political dissension and helped to precipitate the Sino Soviet split Today's leaders point to it as the beginning of two decades of national trauma which ended only after the death of Mao and the purge of the Gang of Four Those leaders have recently authorized the release of a mass of new documentation in the form of political reminiscences economic statistics and leaders speeches This volume is the first scholarly work to use the new material comprehensively weaving it into the narrative along with the contemporary record and the revelations published in Red Guard newspapers during the cultural revolution The result is the most detailed account and analysis to date of what went wrong and why

**The A to Z of the Chinese Cultural Revolution** Guo

Jian, Yongyi Song, Yuan Zhou, 2009-09-17 The Cultural Revolution in the People's Republic of China started in 1966 and lasted about a decade This revolutionary upsurge of Chinese students and workers led by Mao Zedong wreaked havoc in the world's most populous country often turning things upside down and undermining the party government and army while simultaneously weakening the economy society and culture Tens of millions of people were killed injured or imprisoned during this period and relatively few benefited aside from Mao Zedong and the Gang of Four the group that would eventually receive the blame for the events of the Cultural Revolution Given the turbulence and confusion it is hard to know just what happened The A to Z of the Chinese Cultural Revolution tackles this task First in an extensive chronology which traces the events from year to year and month to month then in an introduction puts these events in context and helps to explain them But most importantly the bulk of the information is provided in a dictionary section with numerous cross-referenced entries on important persons places institutions and movements A bibliography points to further sources of information and a glossary will help those researching in Chinese

**Political Protest and Cultural Revolution** Barbara Epstein, 1991-03-14

From her perspective as both participant and observer Barbara Epstein examines the nonviolent direct action movement which inspired by the civil rights movement flourished in the United States from the mid-seventies to the mid-eighties Disenchanted with the politics of both the mainstream and the organized left and deeply committed to forging communities based on shared values activists in this movement developed a fresh philosophy and style of politics that shaped the thinking of a new generation of activists Driven by a vision of an ecologically balanced nonviolent egalitarian society they engaged in political action through affinity groups made decisions by consensus and practiced mass civil disobedience The nonviolent direct action movement galvanized originally in opposition to nuclear power with the Clamshell Alliance in New England and then the Abalone Alliance in California leading the way Its influence soon spread to other activist movements for peace non-intervention ecological preservation feminism and gay and lesbian rights Epstein joined the San Francisco Bay Area's Livermore Action Group to protest the arms race and found herself in jail along with a thousand other activists for blocking the road in front of the Lawrence Livermore Laboratory She argues that to gain a real understanding of the direct action movement it is necessary to view it from the inside For with its aim to base society as a whole on principles of egalitarianism and nonviolence the movement sought to turn political protest into cultural revolution

**Margins** Yiching Wu, 2014-06-09 The Cultural Revolution began from above yet it was students and workers at the

grassroots who advanced the movement's radical possibilities by acting and thinking for themselves. Resolving to suppress the resulting crisis, Mao set events in motion in 1968 that left out in the cold those rebels who had taken it most seriously. Yiching Wu shows Turning Point in China William Hinton, 1972 **New Perspectives on the Cultural Revolution** William A. Joseph, Christine P.W. Wong, David Zweig, 2020-10-26. Since the Cultural Revolution data have been uncovered to illuminate that tumultuous decade, in this volume 13 scholars examine the gap between the ideology of the Revolution and the harsh and contradictory reality of its outcome. They focus particularly on the violence, coercion, and constant tension between the need for centralization to enforce policies and the need for decentralizing decision making if those goals were to be achieved.
