the little oxford dictionary of current english George Ostler, 1930 The Concise Oxford Dictionary of Current English Usage H.W. Fowler, F.G. Fowler, 1964 **Garner's Modern English Usage** Bryan Garner, 2016-03-11 With more than a thousand new entries and more than 2 300 word frequency ratios the magisterial fourth edition of this book now renamed Garner's Modern English Usage GMEU reflects usage lexicography at its finest Garner explains the nuances of grammar and vocabulary with thoroughness finesse and wit He discourages whatever is slovenly pretentious or pedantic GMEU is the liveliest and most compulsively readable reference work for writers of our time It delights while providing instruction on skillful persuasive and vivid writing Garner liberates English from two extremes both from the hidebound purists who mistakenly believe that split infinitives and sentence ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever

available In this fourth edition Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources No other resource provides as comprehensive reliable and empirical a guide to current English usage For all concerned with writing and editing GMEU will prove invaluable as a desk reference Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to whether in word choice syntax phrasing punctuation or pronunciation No matter how knowledgeable you may already be you re sure to learn from every single page of this book *An Historical Syntax of the English Language* F.Th. Visser,2023-05-08 Frederik Theodor Visser s *An Historical Syntax of the English Language* published in four massive volumes between 1963 and 1973 is certainly one of the cornerstones of research in English linguistics Visser s achievements can hardly be overestimated Before the advent of modern corpus linguistics he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time This has made this publications an indispensable resource for anyone investigating the history of English syntax This reproduction of Visser s volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance *Describing Prescriptivism* Ingrid Tieken-Boon van Ostade,2019-10-08 *Describing Prescriptivism* provides a topical and thought provoking analysis of linguistic prescriptivism in British and American English from a historical as well as present day perspective Focusing on usage guides and usage problems the book takes a three fold approach to present an in depth analysis of the topic featuring a detailed study of the advice provided in usage guides over the years an authoritative comparison of this advice with actual usage as recorded in British and American corpora including the HUGE Hyper Usage Guide of English database developed specifically to enable this line of study as well as more mainstream corpora such as COCA COHA and the BNC a close analysis of the attitudes to particular usage problems among the general public based on surveys distributed online through the Bridging the Unbridgeable research project s blog With extensive case studies to illustrate and support claims throughout this comprehensive study is key reading for students and researchers of prescriptivism the history of English and sociolinguistics Found at <https://bridgingtheunbridgeable.com> **Morpho-Lexical Alternation in Noun Formation** Z. documentary material covering every kind of writing in prose and poetry in the Old Middle and Modern periods drawing on quotations illustrating syntactical phenomena in Bosworth Toller O E D M M E D E D D and D O S T but also making reference to obsolete usages not found in any grammar and to the views of English and American grammarians of the 17th 18th and 19th centuries on the various syntactical constructions The volumes of this work originally appeared in the early sixties and seventies and were well received by readers and reviewers Volumes 1 and 2 underwent correction in the light of these early reactions We should like to think that this work will continue to be available to the scholarly world without great increases in the price We are however only reprinting the individual volumes in small numbers and so we have decided that in order to guarantee a consistent reprint and pricing policy for the future the work should be available henceforth only as a set of four volumes
