## **Brecht Unbound:**

**Brecht Unbound** James K. Lyon, Hans-Peter Breuer, 1995 Except for the annual Brecht Yearbook Brecht Unbound represents the first broad critical study of Brecht's works to appear in the United States since before the fall of the Berlin Wall. Intended to move beyond the ideological considerations that have informed so much secondary literature about Brecht, the book is a cross-disciplinary reassessment of important aspects of his work. Included are essays on his poetry, drama, theoretical writings, Brecht's influence on American film techniques and music, his relationship to and borrowings from Japanese No theater, and a comparison between aesthetic techniques in his writings and Stravinsky's *The Little Soldier*. **Brecht Symposium**, 1992 Heinz-Uwe Haus and Brecht in the USA Daniel Meyer-Dinkgräfe, Heinz-Uwe Haus, 2019-08-22 Heinz Uwe Haus was the first renowned director from the German Democratic Republic to be allowed to direct in the USA. This book presents relevant material written in relation to his productions, specifically of Bertolt Brecht's plays. This includes Haus's notes for his casts, announcements of the productions in the media, newspaper reviews, and academic articles about the productions, conference contributions, and reflections by cast members, both professional actors and university faculty, and designers, set, costume, light, music. The material on the productions is then discussed in the contexts of approaches to directing, actor training, the academic debate of Brecht in the USA, and historical and biographical dimensions. A conversation with Haus as the final chapter of the book further contextualises the material brought together here **Bertolt Brecht's**

**Dramatic Theory** John J. White, 2004 In concert with his work as a politically charged playwright and dramaturge, Bertolt Brecht concerned himself extensively with the theory of drama. He was convinced that the Aristotelian ideal of audience catharsis through identification with a hero and the resultant experience of terror and pity worked against his goal of bettering society. He did not want his audiences to feel, but to think, and his main theoretical thrusts, *Verfremdungseffekte* (de-familiarization effects) and epic theater, among others, were conceived in pursuit of this goal. This is the first detailed study in English of Brecht's writings on the theater, to take account of works first made available in the recent German edition of his collected works. It offers in-depth analyses of Brecht's canonical essays on the theater from 1930 to the late 1940s and early GDR years. Close readings of the individual essays are supplemented by surveys of the changing connotations within Brecht's dramaturgical oeuvre of key theoretical terms, including epic and anti-Aristotelian theater, de-familiarization, historicization, and dialectical theater. Brecht's distinct contribution to the theorizing of acting and audience response is examined in detail, and each theoretical essay and concept is placed in the context of the aesthetic debates of the time, subjected to a critical assessment, and considered in light of subsequent scholarly thinking. In many cases, the playwright's theoretical discourse is shown to employ methods of epic presentation and techniques of de-familiarization that are corollaries of the dramatic techniques for which his plays are justly famous.
